THE CATALOGUE PRICES

Please note that all prices **INCLUDE VAT**. All prices in this catalogue are correct at the time of going to press at March 1984 and our priority is to negotiate with our suppliers to keep prices constant for as long as

possible, however, price adjustments may inevitably have to be made and therefore we reserve the right to alter prices without prior notice.

BUYING IN STORE

All products in this catalogue are available through all Motorist Discount Centre stores; for details of branch addresses and phone numbers see pages 4 and 5. If in difficulty, contact our Mail Order department on **Nottingham (0602)**

860204 (24 hours)

NOTE

All products in this catalogue could be available in-store at a reduced price.

For details contact your local store.

BUYING BY MAIL ORDER

Everything you need to know about buying by mail can be found on the special Order Form section at the back of this catalogue.

Credit card holders can telephone their orders direct by phoning **Nottingham (0602) 860204** (24 hours)

BUYING BY TELEPHONE

Credit card holders can telephone their orders direct by phoning

Nottingham (0602) 860204 (24 Hours)

THE WAYS TO PAY

1. Cheques. (Please do not send cash through the post).
2. Postal Orders.
3. Credit Cards. We accept the

following cards:
Barclaycard, Access.

CARNOISSEUR SERVICES

Customer advisory service
Enquiries and product information can be answered by telephoning your local store (see pages 4 and 5) or if more convenient, telephone **Nottingham (0602) 860204**. Also a 24 hour answering service will

accept your message any hour of the day or night and your enquiry will receive our prompt attention. Export enquiries are welcome. Please write for details and quotation.

CARNOISSEUR GUARANTEE

If any of our goods arrive damaged or to the wrong specification, contact us within 14 days on **(0602) 860204** for the returns address and your returns number. Providing the goods are returned

carriage paid, we will refund your money in full or despatch the replacement goods without question. **Please note** that no goods can be accepted without your returns number.

TRADE DESCRIPTIONS

Every care has been taken to ensure description and specifications are correct at the time of going to press at **March 1984**. We must, however, reserve the right to alter prices and specification without notice as

circumstances dictate. Although the colour printing in this catalogue is a good representation, slight variations must be expected. All products are offered subject to availability.

Dear Customer,
Welcome to our new Spring/Summer 1984 catalogue.
The excitement caused by the publication of our first Carnoisneur at MDC catalogue last year has made the development of this one an even greater pleasure.

Our aim each year is to study and revise our product range in line with customer demand and the availability of products.

We have concentrated our efforts for this issue on achieving a balanced selection of products and wherever possible offering these from stock held at MDC outlets.

This objective has required a rationalisation of our product range in certain areas. However, we feel that the benefits in terms of service to our customers will be overwhelming.

We sincerely hope you enjoy looking through this catalogue and remember our next issue will be out in October this year.

Neville Crow

Neville Crow
Managing Director

NOTE

Selected items in this catalogue are offered at substantially reduced prices until 30 September 1984. This sign identifies these bargains.

National Auto

Specialists in Spring & Diaphragm Clutches

Barcden National Auto Parts are specialists in the remanufacture of all types of clutch components supplied to the motor industry. Diaphragm and spring type cover assemblies are fully remanufactured in our own works to the highest standards utilising both

quality materials and workmanship. We offer a comprehensive range covering British, Continental and commercial vehicle cover assemblies and driven plates.

**Available from
all MDC stores.**

parts

BARCDEN NATIONAL AUTO PARTS LTD.

Head Office, Haydn Road, Nottingham

CARNOISSEUR at **MDC**

In 10 years, Motorist Discount Centre has grown to become Britain's largest retailer of motor accessories and specialist components. MDC stores have provided the customer with a more efficient way of buying, by offering discount prices on many leading brands and providing expert staff giving the DIY motorist a service that is quite unique.

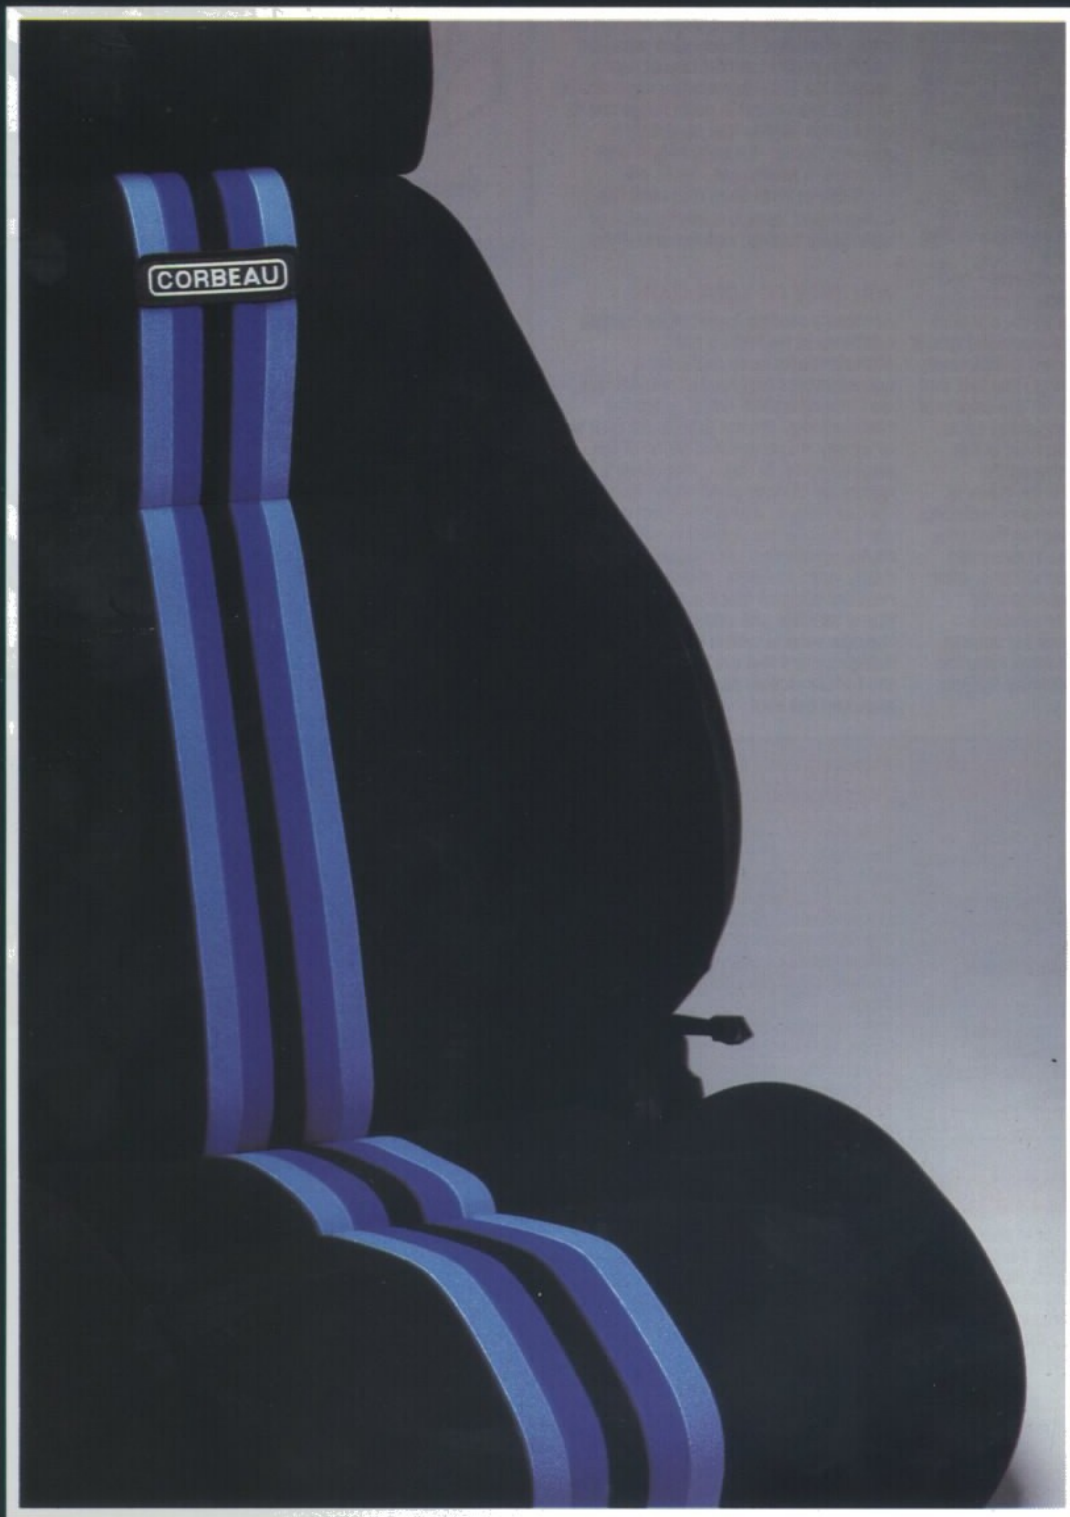

With the addition of Carnoisneur at MDC a complete mail-order programme is now available enabling a wider variety of parts and accessories to be offered through this colour catalogue.

National Training School, Daleside Road, Nottingham

SEATS & INTERIOR

DRIVERS' SEATS - NOT SO HOT

According to one leading orthopaedic specialist there's not one car on today's market that has a completely well-designed driver's seat. And that's why more and more serious drivers are turning to the accessory seat market for relief from stress of the wheel, leg muscle cramp and - by far the worst side-effect of long hours spent in unsuitable seating - low back pain.

The criticisms of car seating made by the ergonomics and medical professions are simply summed up - too much emphasis on sumptuous style and eye appeal, too little on human anatomy. They point out that there are far more muscles involved in motoring than the turn of the wheel and the press on a pedal would suggest.

ACCESSORY SEATS - CLOSER TO THE IDEAL

"Almost all replacement seats are in one respect or another better than the standard item fitted to most cars - and that's regardless of whether factors like the attitude to the wheel or the offset of the pedals is wrong". These are the words of an orthopaedic specialist in industrial, vehicle and aircraft seating. The fact that this is so stems in part from the origins of many of the available accessory seats. Many of the designs were bred in the rough tough world of competition motoring - sport in which the driver is subjected to the most severe of buffeting, experiencing forces far higher than you would ever expect to find in everyday motoring. Under these conditions, often endured for very long hours in rally events, the driver must be retained securely enough to control the vehicle accurately, and the seat must keep the driver comfortable to minimise fatigue and stress.

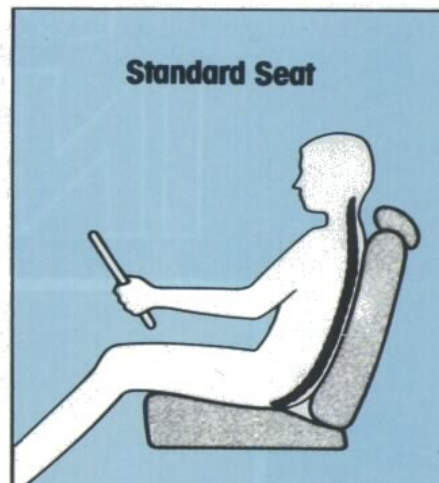

Few everyday motorists would find it convenient to shoe-horn themselves into a competition bucket which, with its hard shell, firm, thin cushioning and well-defined posture shaping, comes close to the experts' ideal seating form. The alternatives are ranges of accessory seating which have considerably less constructive side cushion designs but all the other desirable features of the bucket. All the ranges have firm cushioning to maintain the body in a good posture, there's a pronounced well in the cushion for the buttocks, good thigh support and, often, provision for extended rearward seat travel. The best feature of many seats is the excellent lumbar support. On at least one model in each range this is adjustable - either mechanically or pneumatically - for both height and firmness or protrusion. Seats are available in both fixed and reclining designs and there is a wide choice of upholstery fabrics, colours and styles.

WILL THEY FIT YOUR CAR?

Accessory seating is one of the easiest additions to make to a car. Manufacturers have available a considerable catalogue of sub-frames and mounting kits which adapt the standard seat fittings to take the new seat or simply screw down in place of the original parts. In only a few cases is it necessary to have parts made to any special design. Remember that a good car seat is an investment in your motoring comfort and relaxation for many years to come. When you get your next car you just buy the appropriate sub-frame and the seat can be transferred to the new vehicle within minutes. The only twinges you'll feel are those of sorrow for the torture victims stuck with their standard car seat.

Specialist Seat

METRO FIRST AID KIT

A new approach to 'in car' first aid kits. All basic requirements in a striking red nylon zipper bag which provides several advantages.

It is easy to stow away in the car and does not rattle, is dustproof and water resistant. Most important it has plenty of room for those extra items that you personally want to add, such as aspirin, travel sickness pills, sunburn cream, etc. The specially designed white plastic internal fitment holds the contents securely and doubles as a dish to hold water for bathing wounds.

MC 4048

£6.42

CUSHIONED SEAT PROTECTORS

A completely new concept in seat protection which caters for the many people who wish to protect their seats without covering them up completely. The Metro cushioned seat protector is designed to complement the modern car interior and give adequate protection to the areas of maximum wear and tear. The special foam back is designed not to slip once in position, yet can be lifted for easy cleaning.

Another feature of this type of seat protection is that it can be used either permanently or temporarily - for instance to and from work, for children and pets, after energetic sports etc.

Made from loop raised nylon with polyester foam back, it is washable and hard wearing.

MC 4046

£13.49 pair

AIRFLOW DOOR EDGE PROTECTORS

The Metro Airflow door edge protector reflects the latest feature of modern car design aerodynamics.

Shaped like a miniature spoiler it is moulded in matt black thermoplastic rubber which is impact-resistant and complements the current trends in car trims.

Twin reflectors are fitted to each protector for additional safety. There are two unique features of the Metro Airflow door edge protector.

The first is its self-adhesive method of fixing which overcomes the usual problems of the protector slipping down the door or being lost in the car wash. Although immensely strong, it can be removed without damage to the paintwork.

The second feature is the interchangeable system of car emblems whereby the standard emblems can be replaced by most car marques.

CORBEAU

Corbeau GT seats came into production some 19 years ago as a direct result of the need for a strong but comfortable seat for the club race enthusiast. Over the years this involvement with all forms of Motor Sport has proved to be an ideal opportunity and test programme for the now World famous Corbeau GT seat range.

GTA RANGE

■ GTA Standard and GTA High Back

These two models provide the ultimate in seating comfort at low cost, both being compact and handsomely trimmed, and with a lower fitting point than the rest of the range, making them ideal for the smaller saloon/sports car. Trimmed in high quality cloth material.

MC 3017 GTA Standard Plain	£34.98
MC 3018 GTA Standard Stripe	£52.00
MC 3019 Optional Headrest	£12.00
MC 3020 GTA High Back Plain	£34.98
MC 3022 GTA High Back Stripe	£56.00

GTB RANGE

■ The GTB Recliner. This seat gives a high degree of lateral support and is produced with a superior

standard of trim.

MC 3023 GTB Recliner Plain	£69.95
MC 3024 GTB Recliner Stripe	£88.50
MC 3025 Optional Headrest	£12.00

GT8 RANGE

Euro GT8 Recliner is available in two styles with fully adjustable reclining mechanism or in fixed back form.

MC 4033 Euro GT8 Recliner	£159.98
MC 4034 Euro GT8 Fixed	£139.98

■ GT8 High Back provides the ultimate for the competition driver, having provision for the lapstraps of a full harness to pass through the sides of the seat to ensure maximum driver location, and the shoulder straps pass through the seats at the base of the headrest. This seat is used by the vast majority of top British saloon car drivers, and has also been proved in all forms of motor sport including Circuit Racing, Rallying, Autocross and Rallycross. Additional support struts within the framework are designed with driver comfort and particularly, SAFETY, in mind.

MC 3026 GT8 High Back Plain only	£69.95
----------------------------------	--------

COLOURS

GTA, GTB, GT8

Plain:- Beige, Brown, Blue Red or Black

Colour Comp. Black – Cord or Velour
Touring & Sport Black, Brown or Centre Panels Grey, Blue Tweed.

**SAFE 'N' SNUG**

The new KL Safe 'n' Snug Childs Car Safety Seat. (Approved to BSI 3254)

- Ideal for children aged from about 6/9 months (sitting age) to five years, weighing 9-18 kg.
- It gives an exceptionally safe and comfortable ride with excellent viewing and leg room and cosy sleeping posture.
- Luxurious washable fur fabric cover
- Suitable for saloon, estate & hatchbacks. Second Car Kit available.

MC 3251 Safe 'n' Snug £29.95
MC 3304 2nd Car Kit £8.95

CHILDS SAFETY HARNESS

New specification harness model C19 for Children aged 4 to 11 years. (BSI 3254)

- 'Universal' model to fit saloons, estates and hatchbacks.
- Quick release buckle
- Adjustable pelvic straps and shoulder straps enabling one handed tightening or slackening of tension.
- Width adjustment for shoulder fitting

MC 3261 Safety Harness £16.75

CARRYCOT RESTRAINT

Model A19 Universal Carrycot Restraint complying to the first UK Standards BS AU 186: 1983 published in February '83.

- Purpose designed for easy fitting and fastening, safety in use and quick release in the event of accident or fire.
- Single push button buckle

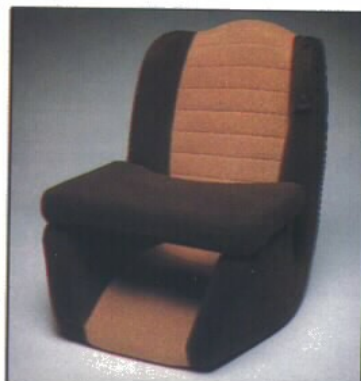

MC 3271 Carrycot Restraint £14.50

**SAFETY BOOSTER CUSHION**

Approved to new British Standard BS AU 185 : 1983

Makes adult seat belts safe and comfortable for children.

- Ready for immediate use with existing adult belts and fitted in seconds without drilling, following simple, short instructions.
- Carefully designed profile with generous fire-retardant padding gives comfortable elevated seating position with no undue pressure points on child's legs, and reduces risk of adult belt dangerously cutting into child's neck.
- Easily removable, washable cover in a choice of colours.
- Easily transferred from car to car in seconds.

**KIDDY CHILD SEAT**

- Child 8 Months - 6 Years i.e. 8.5. Kilo - 25 Kilo
- Light Weight Construction
- Easily Installed and Removed
- Uses Original Seat Belts
- Easily Washable
- Child Easily Removed from Belts
- Raises Child up for Good Vision
- Tray Play Area
- European Approval

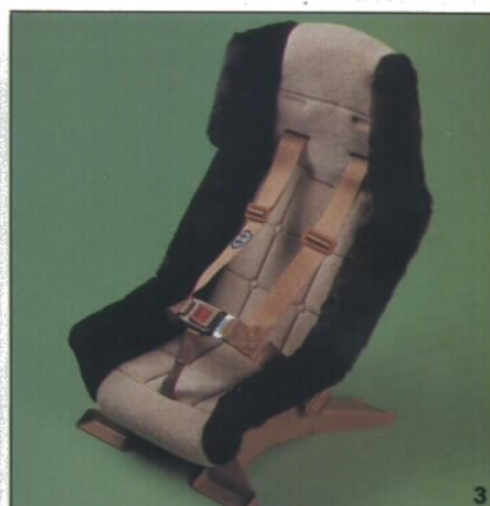

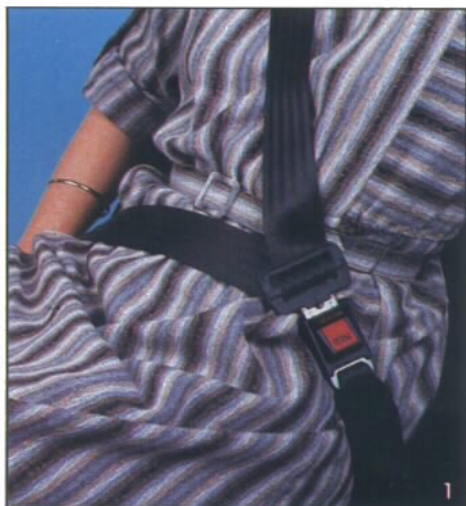

MC 3281 KIDDY £42.95

For rear seats of saloon, hatchback and estate cars when used with Approved 3-point adult belt. Also for front seat, when an extra strap, available from KL at nominal cost may be required. Also for rear seat with KL Jeenay Child Safety Harness.

For children from 15kg (33lb) - about 3 years - upwards, and persons of small stature.

MC 4000 £13.95

REAR SEAT BELTS (1)

Automatic lap and diagonal seat belt, fitted with unique "angle-adjuster" to reel, as shown, therefore making these belts suitable for nearly all applications.

MC 4016 **£23.45**

AUTOMATIC FRONT SEAT BELTS (2)

Automatic lap and diagonal seat belt.

MC 4017 **£18.98**

CHILD SAFETY SEAT (3)

This comfortable child seat has been designed to provide good posture position for the developing child. Suitable for babies from about 9 months to 5 years old. It fits saloon, estate and hatchback vehicles.

MC 4018 **£26.95**

SUPPLEMENTARY UPPER REAR WINDOW BRAKE LIGHTS (4)

- Simple and easy to install
- Clear visual indication avoids accidents
- Easy fitting vacuum cups
- Complies with Road Vehicles Lighting Regulations, when installed as directed.

MC 4019 **£8.98**

BOOSTER CUSHION (5)

Allows children to see safely out of car window.

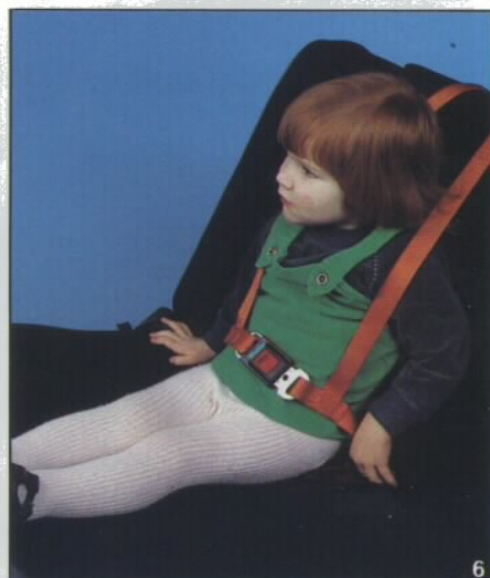

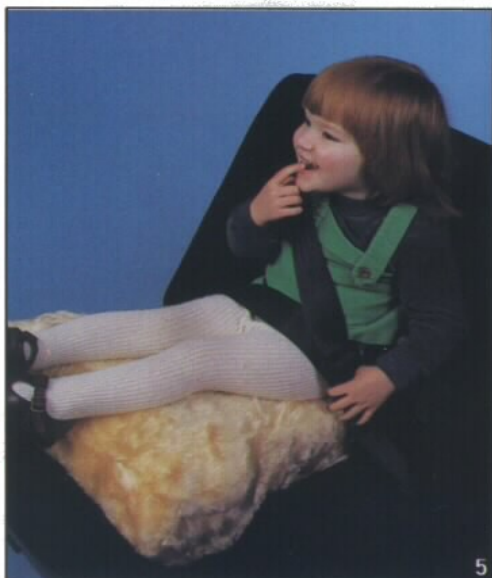

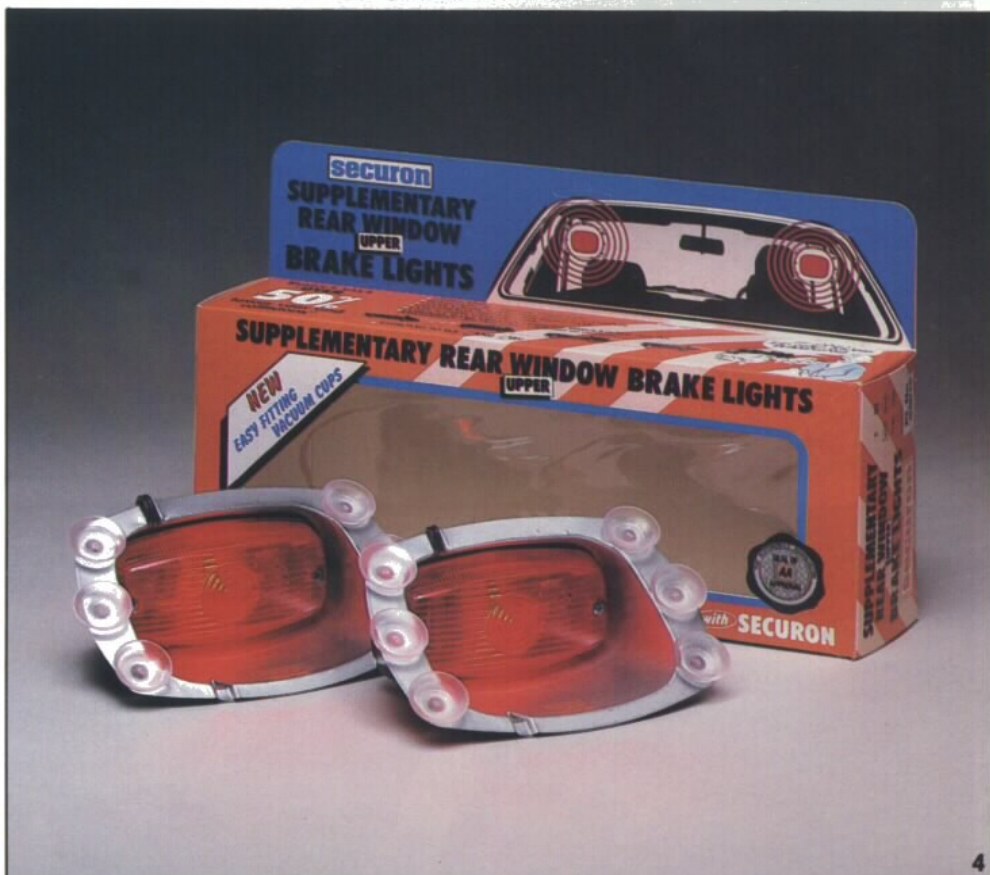

- Removed and refitted in seconds
- Soft deep pile for maximum comfort
- Tested at B.S.I. R.N. 85008
- Machine washable cover.

MC 4020 **£11.85**

CHILD SAFETY HARNESS (6)

Ideal for children from approximately 5 to 12 years of age. Fits saloon, estate and hatchback vehicles.

MC 4021 **£13.98**

SET OF FOUR MATS -

At last! An extremely tough, hardwearing and best of all a good looking alternative to the rubber car mat.

'Weevers' Overcarpets, manufactured in a dense tightly woven mat of 100% pure Sisal are individually tailored to fit your particular car, guaranteeing a perfect fit every time. Choose from four attractive sporty tweed colour combinations that will compliment any car interior. Each set of four mats comes complete with contrasting black piping around all sides and velcro pads on the undersides to eliminate mat movement. A flexible latex back ensures dirt cannot be trapped in the fibres making 'Weevers' very easy to clean with the additional benefits of extra sound insulation. Give your car the kind of protection it deserves.

Available for most makes of cars including: Alfa Romeo, Audi, Leyland, BMW, Citroen, Colt, Datsun, Ferrari, Fiat, Ford, Honda, Jaguar, Daimler, Lancia, Lotus, MG, Mazda, Mercedes, Opel, Porsche, Renault, Rolls-Royce, Rover, Saab, Talbot, Toyota, Triumph, Vauxhall, Volkswagen, Volvo etc.

Complete with comprehensive boss kit. Please state make & model of car when ordering.

WHEELS

ALLOY WHEELS - A MARK OF DISTINCTION

There's no motoring accessory that marks a car so far apart from the common horde as alloy wheels. With their unique combination of styling flair and purposeful performance image a set of alloys is the signature of a car of sophistication. That may be your sole purpose for a purchase of wheels but you should also be aware that these finely engineered pieces of hardware, produced and tested by ultra-modern techniques, have some considerable practical value. First there's the weight saving over cheaper production steel wheels. This gives small fuel economy gains and a little bit of extra performance but the major advance is in the reduction of unsprung weight which can show improvements in ride and handling characteristics. And new wheels also open up to you the possibility to change tyres - perhaps the greatest leap forward in handling, steering response and braking that you could make would be a switch to the latest ultra-low profile designs pioneered by Pirelli's renowned P7 and P6 tyres.

SELECTING THE RIGHT WHEEL AND TYRE

There are two critical measurements to be made in matching an alloy wheel to your car. The type of wheel stud fitting is a combination of the number of studs (4 or 5) and a measure of the diameter of the circle drawn through the centre of the stud holes (known as the PCD). The wheel offset and whether it is a positive (inset) or negative (outset) dimension is also important (see diagram). But don't worry too much if you are simply replacing your existing steel wheels by alloys of the same dimensions. Our comprehensive reference service will give you the exact model application you require. To step up to a wider wheel or, possibly, a larger diameter in conjunction with lower profile tyres you may need to take some expert advice - it is a service we are only too glad to offer.

Selecting tyres is considerably more complex. You must always bear in mind

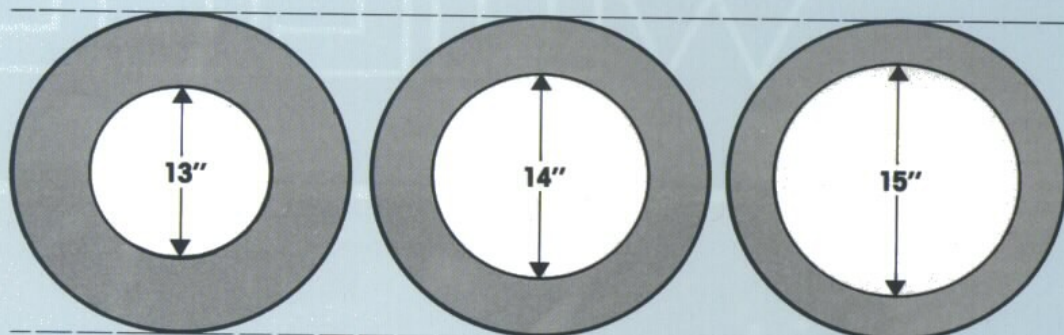

that the lower the profile of the tyre you would like to use the greater the wheel diameter may have to be to preserve the same rolling diameter so there is no change in the car's overall gearing and the speedometer and odometer remain reasonably accurate. But to take full advantage of lower profile tyres the tyre and rim width must also be increased. As there is a limit to the clearances under the wheel arch great care should be taken to ensure that the tyre is not too wide. Only careful cross-referencing between the wheel application list and the catalogues of the tyre producers will reveal the maximum tyre and wheel size that any model of car can take without extensive modification to bodywork or brake and suspension configurations. Note that the profile of a tyre (also known as the aspect ratio) is an expression for the ratio between tyre height (from bead to tread) and tyre width. Standard tyres are approximately 80-85 % profile, earlier lower profile designs now in widespread use are 70 % while the latest

ULP designs like the P6 and Dunlop D3 are 60-65 % profile. The lowest profile of all is presented by the very specialised P7 design at 50 %.

THE ADVANTAGES OF ULP TYRES

The breakthrough to lower profiles than 70 % was made by Pirelli, a company whose researchers recognised that energy absorption by the tyre could be reduced if the tyre height was reduced and the reinforcement of the tread area made extremely strong. This limits the flexibility of the sidewall and improves steering response. The fact that the tyre is wider gives enormous improvements in grip both for braking and roadholding as well as resisting breakaway under hard acceleration. The P7 tyre was the revolutionary upshot of this thinking but to gain much wider appeal it needed the P6, a tyre that can be mass-produced and used successfully on lesser machines. Most other major tyre manufacturers now produce ULP tyres with profiles in the 60-65 % range.

EXTERIOR

Hermetite Pro-Etch. The anti-theft DIY kit that permanently etches the registration number onto vehicle windows.

Fire Extinguisher. A multi shot product containing 600g of BCF/ Arcton.

Brake and Clutch Fluid. 250ml and 500ml. High quality brake and clutch fluid for drum and disc brakes.

Heat Dispersant Paint. A high temperature paint resistant to 450°C. It disperses heat and aids cooler running.

Hermetite

S.A.S. 2½ litre tin and pump. Extend the life of your car with the Hermetite Special Armour System, a high quality protective wax.

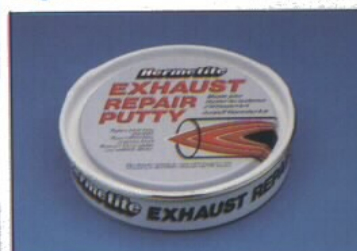

Exhaust Jointing Paste. A smooth consistency high temperature compound giving excellent lubrication to sleeved exhaust joints during assembly.

Exhaust Repair Bandage. The easy to use non asbestos exhaust repair bandage.

Bright Silver Paint. High quality bright metallic silver paint resistant to 600°C.

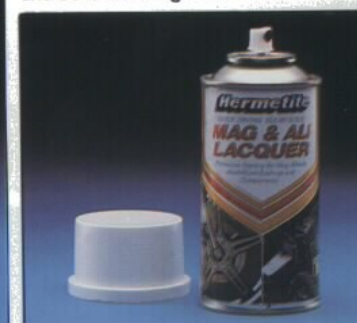

Exhaust Repair Putty. For the repair of holes and leaks in exhaust systems.

Windowseal. Designed to cure leaks in rubber trimmed front and rear screens.

Torqseal. General purpose metal locking sealant which prevents nuts and bolts vibrating loose.

Mag and All Lacquer. A quick drying, clear gloss protective coating for aluminium wheels and components.

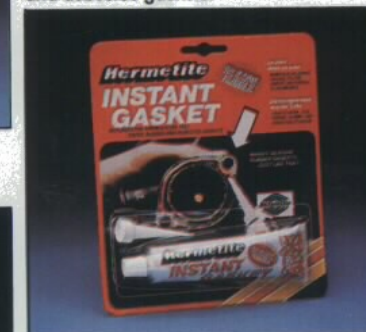

Red Hermetite. The semi hardening gasket jointing compound with excellent gap filling qualities.

Golden Hermetite. The non hardening jointing compound.

Instant Gasket. The original race proven gasket making compound which replaces cork, felt, paper, rubber and asbestos gaskets.

SOLARPORT SUNROOF

5 STAR FEATURES

* Big value 30" x 15" tinted toughened safety glass panel, manufactured to British and European safety standards.

* Twin tilt positions. With the twin position handle the Solarport is the ideal solution to draft-free fresh air motoring, whether it be on the motorway or running around town.

* Easy, safe one handed operation. Opening and closing the sunroof is a simple one handed movement and with the simple quick-release mechanism the glass panel can be easily removed to give open air motoring.

* Optional wind deflector and stowage bar. With the glass panel removed you may wish to fit the optional deflector. This

simply slots in for total driving comfort eliminating noise and buffeting, even at higher motorway speeds.

* 24 months guarantee. The Solarport Sunroof carries a 24 month guarantee covering all parts and manufacture to ensure absolute satisfaction.

SOLARPORT Fitting instructions, templates and sealants are all included for the competent D.I.Y. enthusiast to install it himself. Alternatively your M.D.C. store manager will recommend a local sunroof fitter to carry out the installation at reasonable cost.

MC 3148	Sunroof	£69.50
MC 3149	Deflector	£9.50
MC 3150	Stowage Bag	£4.25

BRITAIN'S BEST VALUE

Safe, one handed operation

**TARGA TRIMS**

- Add a modern style to your standard 12, 13 or 14 inch steel wheel
- Made from high impact-resistant plastic and finished in white, gold or silver
- Matt black hubcaps complete the effect
- Simple clip-on fitment
- Easy to maintain
- To obtain the best effect from Targa Trims, the centre of your standard wheels should be sprayed black
- Targa Trims come attractively boxed in sets of 4
- Not for use on alloy wheels
- See Application List for full fitment guide

BG6	5½in wide x 14ft long	£24.98

ARCHGUARD

Gives your wheel arch protection from stone chips (and the resultant rust), dents, road salt, parking knocks and scratches etc. Archguard is a flexible black moulding which completely encloses the inner

wheel arch flange and extends onto the outside edge. It has been designed to be fitted into the car bodywork so giving the appearance of original equipment fitting. Archguard is supplied with a full fitting kit for easy fitment. Needs no drilling or glueing. Please give full details of vehicle make, model and year.

ARCHFLARE

Gives your wheel arch the same invaluable protection as Archguard with the facility of extending the wheel arch by approximately 3/4"

CC2062 Archflare £21.95

CC5084 Archguard £17.95

TURBOVANE

The wind deflector for hatchbacks, estates and station wagons.

- ☐ Improves Rear Screen Vision
- ☐ Aerodynamic Styling
- ☐ Instant Easy Fitment
- ☐ Snap Fit - No Drilling Required
- ☐ Plastic Moulded Parts
- ☐ Kit Contains 2 TurboVanes and 4 Fixing Brackets

Please give full details of vehicle make, model and year

CC2064 TurboVane £7.75

AIR TRIMMERS

Race developed and proven, universal wing trims reduce drag by controlling the direction of airflow across the bonnet.

Made from self-adhesive, black, semi-rigid polyurethane foam. Simple to fit - supplied in sets of two.

MC 3302 Air Trimmers (81 cms) £13.95
MC 3303 Air Trimmers (97 cms) £18.50

TAILBLAZERS

These attractive rear panels are available for the following cars: The kit comes complete with all necessary fixing instructions.

If your car is not shown, please enquire for further details.

AIR PRESS®

WINDOW STREAMLINERS

Stylish and functional, these smooth the turbulent air flow over windows and allow them to be open, even a few inches, to provide many all season benefits.

You can choose between two versions, Standard or Plus. For extra comfort the Plus model has an additional side-piece, the Blast-Blocker, which reduces annoying buffeting around the head. Do not forget the rear windows too.

- Extracts stale air and aids ventilation.
- Reduces drag . . . improves economy
- Helps keep windows clean in rain.
- Reduces window condensation.
- Made from test-marked acrylicglass.
- Smoke-tinted finish screens sun glare.
- Neatly secured without brackets or screws.

Style B. For cars without quarter-lights.

MC 4097 Plus £35.95

MC 4098 Standard £30.80

Style A. For cars with quarter-lights. e.g. Golf, Fiesta, Nova.

MC 4099 Plus £20.50

MC 4100 Standard £16.50

Style Q. For rear windows.

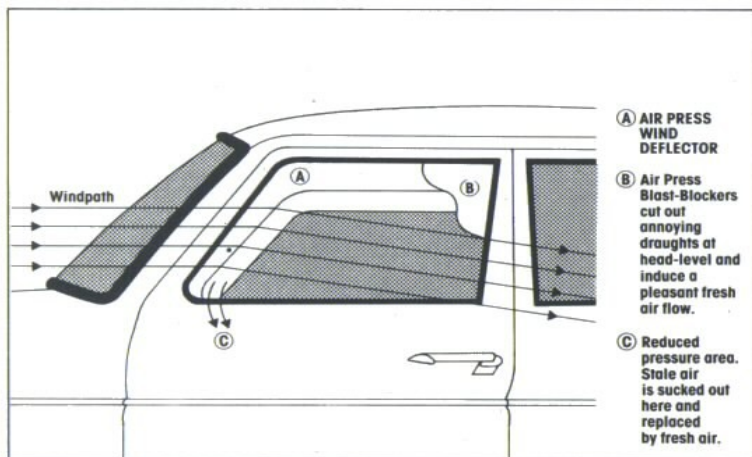

£16.50

Style L. For cars with quarter-lights. Full type deflector as Style B.

MC 4101 Plus £35.95

MC 4102 Standard £30.80

All Streamliners are sold as pairs. Plus models incorporate Blast-Blockers.

AIR SCOOP

Increases fresh air flow. For; Golf, Scirocco, Escort, BMW 3's, Renault 5 Mazda 323. Can be painted.

MC 4103 £19.95

DECOR STRIP

A distinctive design in white and blue. Universal application. Cut to size.

MC 4104 £9.95

AIR PRESS AIR DEFLECTORS

AIR PRESS are world renowned as the experts in the manufacture of highest quality air deflectors for cars. They produce the most comprehensive range available for modern cars and you can choose a type to suit both pocket and taste. Made in Germany, they are aerodynamically designed to make your motoring more comfortable, more economical, and more stylish. These modern, streamlined deflectors will complement the lines of any car and complete the package of other aerodynamic styling aids such as spoilers. Open windows and sunroofs create extra drag, AIR PRESS deflectors reduce this drag by streamlining the air flow, so improving economy. Made from highest quality materials, they are easy to fit and remain secure at all times, even in car washes.

They are supplied to, and approved by many manufacturers and importers in Europe, and now this new range of beneficial accessories for the economy and style conscious eighties, is available in the UK for you to enjoy.

When ordering, please give full car information: make, model, year no. of doors. Refer to application list in store. Available for: Alfa-Romeo, Audi, BMW, Citroen, Colt, Datsun, Fiat, Ford, Honda, Jaguar, Lancia, Lada, Mazda, Mercedes, Metro, Maestro, Opel, Peugeot, Renault, Rover, Saab, Talbot, Toyota, Vauxhall, Volvo, V.W.

BLIND SPOT MIRROR

For extra safety. Simply sticks to door mirror to give increased visibility of danger spots normally hidden from view.

MC 4105 £1.99

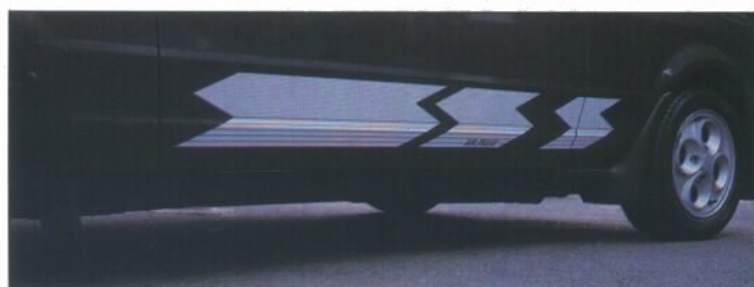

SUNROOF DEFLECTOR

The only sunroof deflector with Air Control, the fully adjustable vent-flap which can be used to direct fresh air inside the car for extra ventilation, and tune 'tune-out' booming too. Now available with two flaps for individual driver and passenger control. All provide the usual benefits of the Standard deflector without the flap, allowing you to use your car's sunroof to the full, without wind roar and buffeting.

Air Control (single flap) £35.95

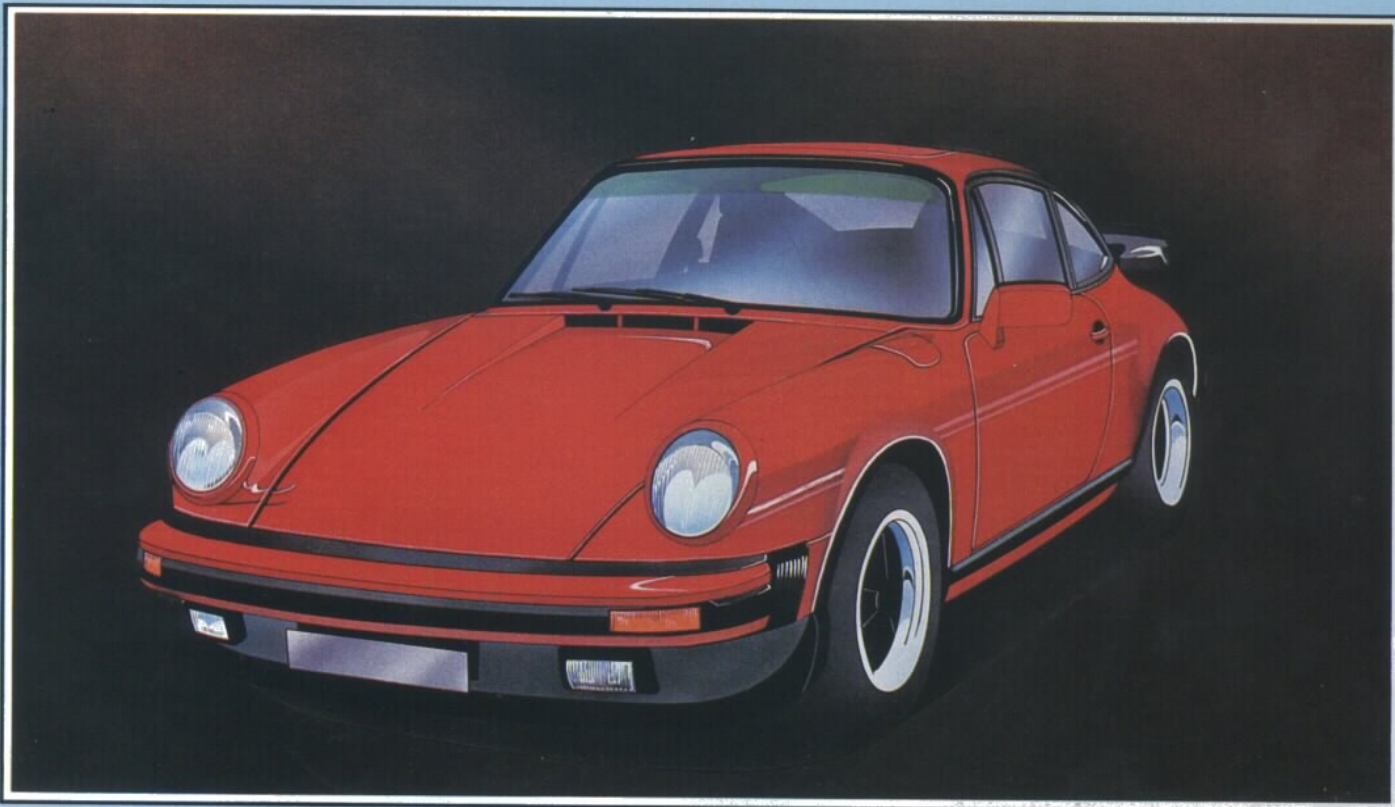

Air Control (twin flap) £42.00

Standard (without flap) £29.95

BRANYL SIDELINER

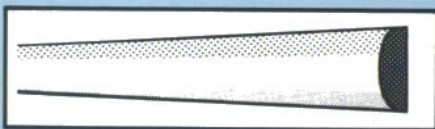

PROFILE TRIM

PROFILE TRIM

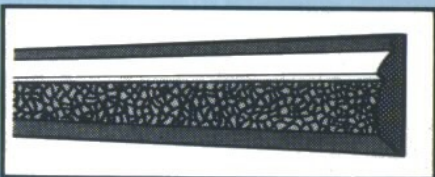

Enhance and protect the appearance of your car, boat or caravan with the SIDELINER range of body trims.

Self adhesive and easy to apply, the range protects against minor knocks and scratches.

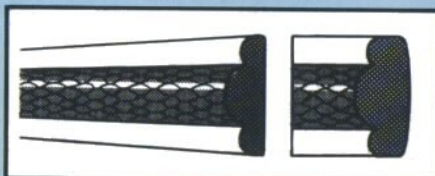

P.T.7063 WHEEL ARCH MOULDING

Available in chrome in 5.5 metre kits. Enough for 4 arches. **£8.50**

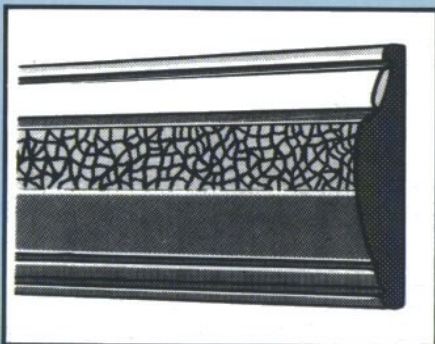

P.T.7326 PROFILE TRIM

Finished in Black with a single chrome strip. 15mm wide, the kit contains 8 metres of trim. **£14.25**

P.T.7150 PROFILE TRIM

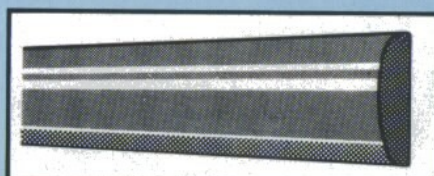

Finished in Black with double chrome strip, the kit contains 8 metres of trim plus 4 finishing pieces. **£13.00**

P.T.9004 PROFILE TRIM

Designed to fit between wheel arches, this attractive Black trim has a contrasting pinstripe in the moulding.

Available with Blue or Red pinstripe, the kit contains 4 metres of 37mm wide trim. **£13.36**

P.T.7275 PROFILE TRIM

Pure rubber O.E. type trim. Each pack contains 8 metres of 17mm wide trim. **£12.46**

TPS 1 TAPER STRIPE

Kit contains 2 x 15ft. lengths of striping material each tapering from 1/4 inch to 2 inches to give a professional 'die-cut' appearance on all cars from a Mini to a Mercedes. **£4.50**

'Profile Trim' and 'Taper Stripe' are only part of the range of products available from:-

BRANYL LTD.

Unit 17. Kimberley Way, Redbrook Lane Trading Estate, Brereton, Nr. Rugeley, Staffs.

**MADE IN BRITAIN****▲ WINDMASTER 'TINTS'**

The new Continental type deflector manufactured in smoke grey. These deflectors have the accent on style and have a larger aperture than the original Windmaster Weather Shield. The 'Tints' are only available in pairs.

When ordering please state Make, Model and Year of car, whether estate or saloon, two or four door.

CC2368 Pair **£27.60**

◀ EECO WINDMASTER WEATHER SHIELDS

Reduces annoying draughts and enables true window down motoring. Combats cigarette fumes, car sickness and drowsiness. Up to the minutes styling in aerodynamic shape the Windmaster is a must for all those who enjoy fresh air in the car.

When ordering please state make, model and year of car, whether estate or saloon, two or four door. Available separately in either left or right hand (please state this in your order) or as a matched pair.

CC2369 Each **£13.80**
CC2370 Pair **£27.60**

◀ TOWING BRACKET

Made from high quality steel, designed to be neat and unobtrusive with the D.I.Y. fitter in mind. Over 400 different applications to fit most British, Continental and Japanese cars from 1971 onwards.

CC2228 (most models) **£29.50**

FORD CORTINA TOW BAR

MC 4037 (saloon) **£16.98**

When ordering please state make, model and year of car, whether saloon, estate or hatchback and (especially important for Japanese cars) series number and prefix mark e.g. Datsun 160J 2 door Saloon 1980 Type KPA 10.

SPOILERS

THE QUEST FOR AERODYNAMIC PERFECTION

In the constant search for cost effective ways to reduce fuel consumption and raise performance motor industry research engineers have identified just three key areas in which some advance can be made on the cars of today. Reducing overall weight and the development of more efficient engines are two fields in which we can expect a long haul of small improvements stretching well into the next millennium. But immediate gains are being made in the field of aerodynamics. Witness the great leap made with the launch of Ford's Cortina replacement, the Sierra. With a drag coefficient of 0.34 - the measure of its aerodynamic efficiency - the Sierra is better than 10% more effective at cutting a turbulence-free path through the air than most other mass production cars produced in the last decade. And Ford expect to do even better than this figure with later models of the Sierra to follow over the next two years.

The main difference between today's Sierra and the models to come will be found in some relatively insignificant body modifications such as the use of front and rear spoiler arrangements. These represent the fine tuning of an already superb aerodynamic profile. They are the sort of tweaks that could gain a small percentage increase in performance or conversely a percentage point or two in fuel consumption while at the same time giving considerable improvements in high speed handling by reducing lift on the front and rear axles. Had Ford's engineers started with the far from perfect aerodynamic profiles of many of the cars that have been on the road in the last ten years the gains would be correspondingly greater.

That's the opportunity you can take by buying ready-made front and/or rear spoilers that have been specially designed for specific makes of car during, cumulatively, many years of stringent wind tunnel and dynamic testing. Each spoiler is profiled to fit accurately on to your car's bodywork in the optimum position for the best aerodynamic results whether you are looking for improved fuel economy, a little extra performance or more predictable high speed handling. What you also get is an immediate improvement in styling distinction - spirited looks that set the car, however many there are on the road, apart from the crowd. Spoilers are functional as well as fun and they're also the key to the motoring look of the 1980s, the art of customising by colour co-ordination. It was that thinly disguised Sierra, Ford's styling prototype Probe, that was in the vanguard of the co-ordinated style. With its all silver body relieved only by tiny vestiges of trim and styling motifs, the dominant twin rear spoiler and the subtlety of the two-tone paint shading it epitomises a look that can be created on your own, less exotic, runabout. By remodelling the car with the simple addition of effective spoilers and other cosmetic aids, such as wheel arch flares and false side skirts, then giving it the blowover with your own choice of chic metal-flake - wheels, trims, bumpers and all get the treatment - you can take a step up-market at a fraction of the cost of buying a piece of mass-production exotica.

HOW SPOILERS WORK

The crude shape of many cars is not dissimilar to that of an aerofoil. It has a relatively flat underside and, roughly speaking, a curvature of its upper surface from front to rear. However, it varies from an aerofoil in three crucial respects.

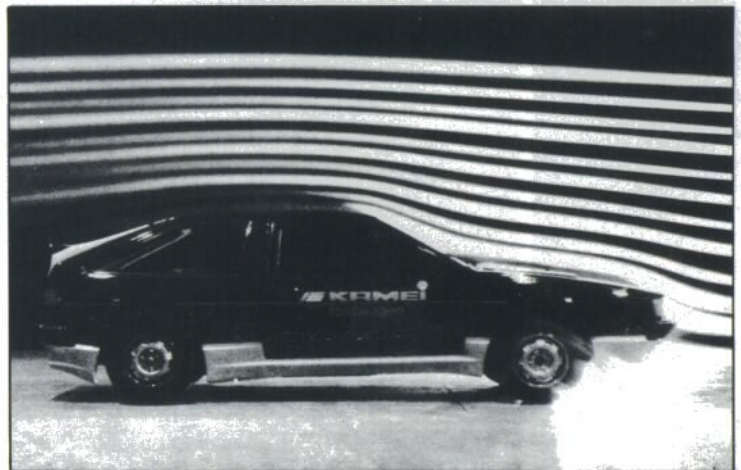

Firstly, the last thing that you want a car at speed to do is lift. At the front lift relieves pressure on the tyres' contact patch with the road, lowering adhesion and affecting the steering (and the traction of front wheel drive models). At the rear traction may be lost and the lowering of adhesion may provoke oversteer. Secondly, the car's underside is not a perfect surface. The wheels are a major cause of air resistance and the unevenness of flow around the engine and transmission parts further increases drag. Finally, the tendency of designers to chop off the rear of the car at the boot-lid - especially marked in some hatchback and all estate designs - creates an area of air turbulence immediately behind the car which is yet another addition to aerodynamic inefficiency.

Front, or chin, spoilers work in two respects. As an air dam they limit air flow underneath the car and spill it around the sides of the vehicle to avoid the drag of the wheels. A slight projection forward creates a small amount of downward pressure on the car's front suspension sufficient to counteract any tendency to lift. The effect is small even at high speeds - perhaps a maximum of 50 pounds weight equivalent - but it is very significant at the limits of the car's adhesion.

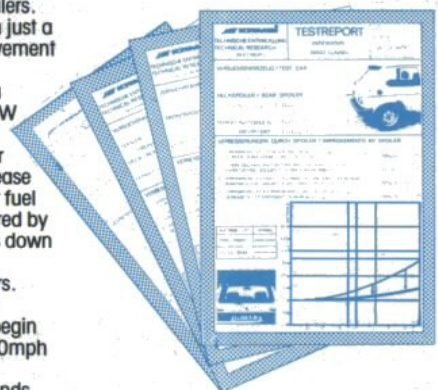

At the rear the aim is twofold. Again it is sometimes necessary to provide additional pressure on the rear suspension for improvements in handling but for many cars it is more important to reduce the amount of air turbulence in the area immediately behind the boot or tailgate. The turbulence exists because the airflow over the car becomes "attached" to the body surface but not so attached that it can follow the sharp cut-off at the rear of most models. The result is that the detachment of the airflow is very uneven coupled with the fact that the car "pulls" along with it a small area of low pressure into which the airflow is drawn. Better design of the body can reduce the low pressure area enormously but on an existing body the aim is to detach the airflow much more cleanly and substantially reduce the turbulence. It is, therefore, usually necessary to mount the spoiler very close to the actual point of detachment on the roof or bootlid.

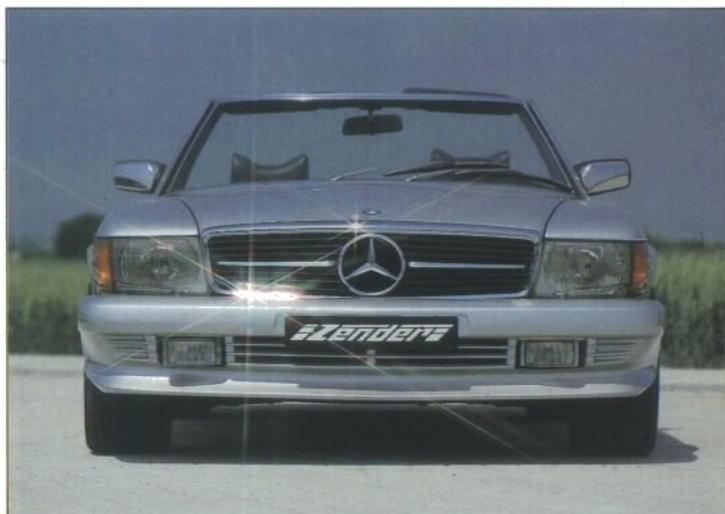

Just what can be achieved on relatively satisfactory standard car body designs is shown by a set of tests carried out on the VW Beetle and the VW Golf by

aerodynamics experts at Kamei, a major West German manufacturer of spoilers. The humble Beetle 1303 fitted with just a front spoiler chin had a 4% improvement in drag coefficient resulting a performance increase of 7% and a consistent fuel saving of 1.5%. A VW Golf which had both front and rear spoilers proved to have 14% better performance (that's an actual increase in top speed) and was a 3% better fuel saver with its drag coefficient lowered by 9%. On this car the overall lift was down by 43%.

There are other payoffs from spoilers. Although most of the performance increases and fuel savings do not begin to show until speeds in excess of 50mph are reached many cars gain an improvement in reaction to headwinds and cross winds at lower speeds. And that bane of road dirt and mud being deposited on the rear window can be banished. Quelling the turbulence prevents the spray being drawn into the area of the glass so your rear-wiper could become almost redundant.

Since 1975 ZENDER have been the leading designers and manufacturers of body styling components and accessories in West Germany. This exciting range of high quality products is now available in the UK via GTi Engineering, Silverstone. Most items are made from modern hi-tech materials such as: ABS

thermoplastic, PU rigid foam and RIM 'Aerolastic' and are ready for painting and fitting to your car, giving it the exclusive 'Zender look'.

KAMEI REAR SPOILERS

Rear spoilers contribute greatly to the stability and performance of vehicles at high speed. Kamei rear spoilers are made from special shock resistance polyurethane foam. EXAMPLE: A VW Golf equipped with a Kamei rear spoiler - lift-up was reduced by 70% and reduced air resistance yielded 5% more power. Fitting kits and instructions supplied. KAMEI rear spoilers are designed for simple D.I.Y. installation.

CC 5082 **Front Spoilers**

For complete details of vehicle make, model and year. We have been unable in this limited space to list all spoilers available; if your vehicle is not mentioned, please phone with full details of your car.

This range of aerodynamically designed front and rear spoilers improves the airflow over the vehicle to reduce drag. This helps to reduce fuel consumption and make the car more stable in crosswinds.

Richard Grant produce the world's largest range of front and rear spoilers, which enhances the look of the car and due to their design are purchased by many European Car manufacturers and importers.

Front spoilers are made of strong ABS plastic which can be left black or painted.

Flexy Rear Spoilers are supplied complete with full easy to follow fitting instructions.

WHY OWN A CRUISE CONTROL?

In the past few years, cruise controls have grown from infancy to one of the most asked for accessories. Drivers have discovered that not only does a cruise control prevent accidental speeding, and reduce fuel costs by up to 15%, but allows the driver to arrive fresh and relaxed even after long trips. Relieving the pressure on the foot and spine means laughing at speed traps and getting to your destination in fine fettle.

WHY A ZEMCO CRUISE CONTROL?

There are no better performing cruise controls at any price! In February 1983, Zemco's Chief Engineer was invited to present a paper and speak about cruise controls at the SAE show in Detroit, USA. Several hundred of the world's finest automobile engineers listened avidly to this disclosure of Zemco cruise control design and technology. Proof in itself that Zemco controls are unbeatable in price and performance.

ZT-10

MODEL ZT-10 CRUISE CONTROL

The Cruise Control Model 10 is a micro-computer that stores any speed chosen by the driver and continually and accurately holds it. This means that, once a speed has been programmed - this is done at the push of a button - there's no need to touch the accelerator anymore. Whether up hill or down dale, the Zemco Cruise Control adjusts automatically twice every second for smooth, precise cruising that ensures there is no surging or petrol wasting over correction.

Any speed over 25 mph can be set and, of course, as soon as the brakes are touched or a gear is changed, the cruise control is immediately and automatically switched-off. Touching the 'resume' button automatically

allows the vehicle to resume it's last set speed.

Join over a quarter million satisfied owners who give their orders by snapping their fingers but without having to put their foot down!

- Saves up to 15% on fuel consumption.
- Eliminates driver fatigue
- Prevents back-ache, knee strain and leg cramp.
- Avoids inadvertent speeding and, thus, speeding tickets.
- Ensures effortless towing.
- Has lighted keys for easy night time operation.
- Fits on all 12V vehicles with standard or automatic transmissions.
- Guaranteed for 6 months from date of purchase.

MC 3280 ZT-10

£59.95

MODEL ST-14 CRUISE CONTROL

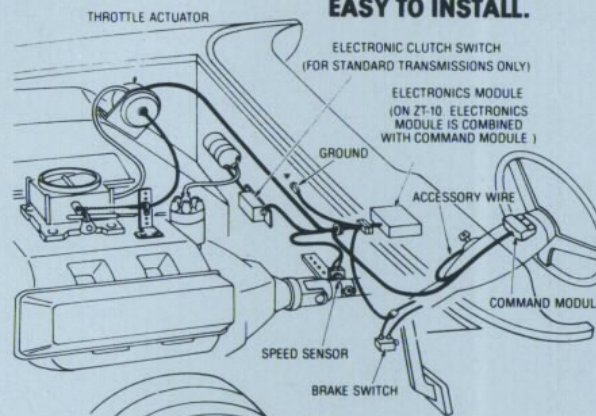

The Zemco Cruise Control Model 14 is designed for the driver who wants something a little extra. This outstanding cruise control, which has all the features of the Model 10, also provides an auto trip computer. It's the cruise control with a touch of the bright lights that makes a visible difference! A separate computer module displays distance travelled and elapsed time on trip. Also the precise speed of the vehicle often quite different to the speed reading given by conventional instrumentation. The trip information is automatically re-set whenever the vehicle is started.

- Saves up to 15% on fuel consumption.
- Eliminates driver fatigue
- Prevents back-ache, knee strain and leg cramp.
- Avoids inadvertent speeding and, thus, speeding tickets.
- Ensures effortless towing.
- Displays trip distance, trip time or actual speed, in english or metric.
- Has lighted keys for easy night time operation.
- Fits on all 12V vehicles with standard or automatic transmissions.
- Guaranteed for 6 months from date of purchase.

C-44

MODEL C-44 COMPUCRUISE

The CompuCruise Model 44 is the top-of-the-line computer incorporating 44 separate driving and fuel-management functions. And it even includes a cruise control!

Similar to instruments used in aircraft, this computer puts valuable information about time, distance, fuel and the performance of your vehicle right at your fingertips. Not a calculator operating on fixed information provided by the driver but a true computer operating from automatic data sensors that constantly react to changing conditions - automatically recomputing vital data every second.

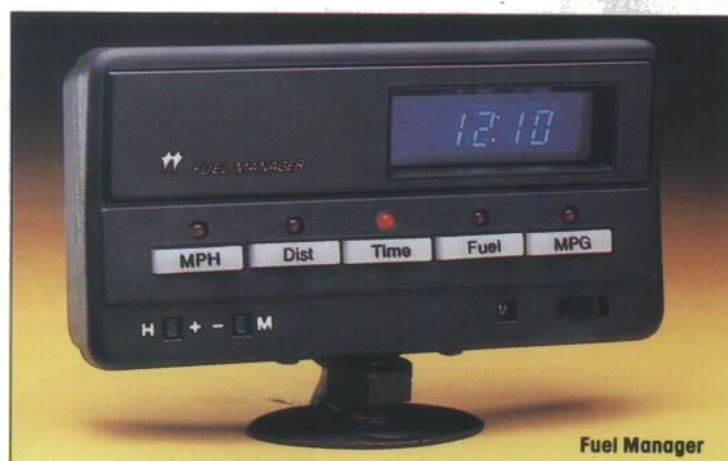

The system is designed to provide you

with the most sophisticated data for saving fuel. It can be calibrated for accuracy to any passenger vehicle regardless of engine size and is simply installed on most 12V vehicles.

- All required information for efficient fuel management
- A computerized cruise control.
- Historic and predictable data on time and distance.
- Inside and outside temperatures.
- Battery/generator voltage check.
- Reminder alarm.
- Calibration facility.
- English or metric display.
- Guaranteed for 6 months from date of purchase.

Fuel Manager

FUEL MANAGER

The Zemco Fuel Manager has been designed for the driver who requires only basic operating and fuel management data at the lowest possible price.

The Fuel Manager computes in current and historic form the fuel used, distance driven, time of day, miles per gallon and miles per hour. It comes factory calibrated but has a calibration feature for fine tuning. Automatically converts to English, Metric or Imperial measurements. LED annunciators indicate which function is being displayed.

An exclusive pedestal mount allows the

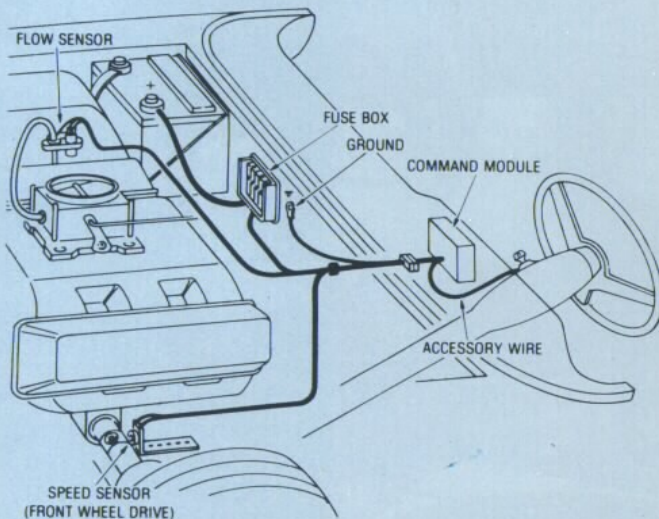

computer module to be simply installed above or under dash. Its small size also makes flush, in-dash, mounting possible.

- Basic information for efficient fuel management.
- Historic data on distance travelled.
- Time of the day
- Calibration facility.
- LED annunciators.
- Automatic night-time dimming.
- English or metric display.
- Guaranteed for 6 months from date of purchase.

Brighter - Safer - Smarter

PILOT RANGE

Stylish and sporty, the compact and rugged Pilot range improves visibility and increases safety margins at night and in poor driving

conditions. Protective grilles and robust housing to resist damage and corrosion. Simple, DIY installation, round (140 mm dia) and rectangular (177 x 86 mm) styles for upright or pendant mounting.

TOURING RANGE

Large-diameter, slimline Touring range lamps look good and promote safer motoring too. Housed in corrosion-resistant materials for long

life, they come in simple-to-install DIY kits. Round version (160 mm dia) is suitable for upright mounting, and rectangular (175 x 88 mm) style for upright or pendant installation.

BOSCH Car Alarms

Simply better security

CAR ALARM 1 (BLISTER PACK)

Pack contains: alarm relay, alarm switch, four contact switches, fasteners and connectors, window stickers, fitting instructions.

- Alarm activated by concealed switch inside vehicle which allows owner 60 seconds to leave vehicle and 5 seconds for re-entry.
- When triggered, sounds vehicle's horn for 30 seconds, intermittently.

1

- System triggered when ignition switched on or short-circuited, and on opening of doors, boot or bonnet when fitted with contact switches.
- May also be fitted to sound alarm on breakage/removal of heated rear window, car radio and auxiliary lamps

0 335 411 909

£32.18

CAR ALARM 1

Pack contains: separate horn (for added security), alarm relay, alarm switch, two contact switches, fasteners and connectors, window stickers, fitting instructions.

- Alarm activated by concealed switch inside vehicle which allows owner 60 seconds to leave vehicle and 5 seconds for re-entry.
- When triggered, ignition and starter motor are open-circuited

and system sounds its own horn for 30 seconds, intermittently.

- System triggered when ignition switched on or short-circuited, and on opening/breaking heated rear window, doors, boot or bonnet, when fitted with contact switches.
- May also be fitted to sound alarm on removal of car radio and auxiliary lamps.

0 335 411 904

£44.08

2

CAR ALARM 2

Pack contains: external waterproof key switch, separate horn, 4 contact switches, alarm relay, fasteners and connectors, window stickers, fitting instructions.

- Alarm primed by external waterproof key switch. For complete security even if safety key switch leads are cut or tampered with alarm will activate.

- When triggered, ignition system and starter motor locked out and system sounds its own horn for 30 seconds, intermittently.

- System triggered when ignition switched on or short-circuited, and on opening/breaking heated rear window, doors, boot, bonnet and radio when fitted with contact switches.

- May also be fitted to protect auxiliary lamps.

0 335 411 901

£73.14

3

CAR ALARM 3 (MICROTRONIC)

- Pack contains: electronic attitude transducer, relay, fitting instructions. Must be used in conjunction with Car Alarms 1 and 2.

- Inbuilt electronic computer system memorises attitude of vehicle (i.e. parked on slope, hill, kerb) and sounds alarm if attitude is altered.

- Sensitivity of unit is adjustable. It is not triggered by slow movements such as punctures, falling snow, etc.

- System has no external linkages, switches or leads accessible.

- Affords not only vehicle security but also protects against wheel removal.

0 335 411 903

£152.93

CAR ALARM 4 (SONIC)

Pack contains: transducer (sensor), relay, fitting instructions. May only be used in conjunction with Car Alarms 1 and 2.

- Affords ultrasonic protection of complete vehicle passenger space through ultrasonic movement detector working in three dimensions and creating a 'field'.

- Any change in the 'field' – such as movement, opening windows, tearing of roof cover, etc – is registered by the sensor, transmitting to the relay and triggers the alarm.

- Sensitivity of unit is adjustable.

Powerful Halogen lamp providing extra illumination for roadside repairs.

TL099S00 £12.95

EUROPEAN TRIANGLE

Manufactured in tough metal and plastic to European standards.

BT010S00 European Triangle £7.95

REAR FOG LAMP CUT-OUT SWITCH

Modern fog lamps are an excellent idea for the back of the car. In poor weather, they are visible just that much quicker and for the same reason are an enormous advantage on the back of a caravan. They are not such a

tremendous advantage on the back of the car when you are towing a van however. It's like hauling a floodlit Taj Mahal and the glare reflected off the front of the van is a terrible nuisance. That's where the rear fog lamp cut-out switch comes in useful. It senses whether the trailer's fog lights are off, whether they have failed or are disconnected because the trailer is not being used, then the car fog lights switch on. Fitting is simple; the small unit is mounted conveniently in the car boot and the rest of the work involves little more than wiring.

C0511S00 Cut-out Switch £4.45

BATTERY CHARGER RELAY

At one time all the electrical equipment in the caravan could be operated from the car battery. Today's outfit, however, is a very different proposition from that of a few years ago. Every modern convenience means a much higher demand for electric power, and the only way to supply it is to fit a second battery in the caravan. Keeping this charged is the problem. Charging it periodically from the mains with a conventional Sedan battery charger is one solution. A more convenient answer, however, is to connect it to the car's charging circuit and let the alternator do the work. All this

is not as simple as it sounds, however, and precautions must be taken to prevent the car taking current from the trailer battery when the engine is started or the trailer battery taking current from the car battery and flattening it. This is where the battery charger relay comes in. It adds so much in the way of convenience to modern caravanning that you'll wonder how you ever managed to do without it. Fitting, once again, is simple. The charger relay mounts under the bonnet and is simply wired in.

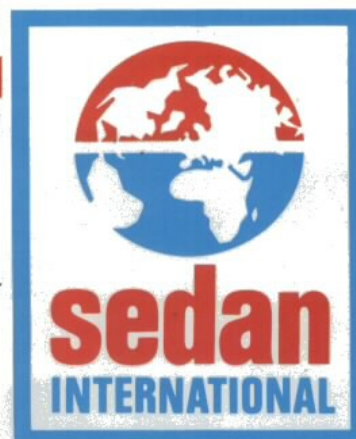

BR521S00 Charger Relay £5.95

TRAILER WIRING KITS

Every time you change your car you have to fit a new towbar and usually, fit a new trailer wiring kit as well. As, in most cases, you cannot transfer the towbar itself from one car to another, there is little sense in transferring the electrical side. Much better to sell the old car with the towbar in place and operative. That means fitting new electrics to the new car and Sedan have the kits for the job. Everything you need is included — seven-pin socket and mounting plate with seven-core cable attached, dashboard warning light, cable, connectors, and the slave flasher unit can be included or not, as preferred. You

have to do something about the flasher unit because the extra load imposed on it by the additional direction indicator lamps on the trailer will slow down the frequency of the flash. Generally it's a matter of fitting a slave or substituting a heavy duty unit.

WK 400 with slow flashing unit £12.95
WK 398 without slow flashing unit £6.95

Vehicle security systems

INTERLARM

Using latest integrated circuits features additional protection.

- Protects all parts of car and contents
- Incorporates courtesy light delay
- Accessory protection circuit is always active — even if system is not armed!
- Sounds horn intermittently for 3 minutes with automatic reset
- Safe — does not interfere with lights or ignition
- Added features at no additional cost
- Fully illustrated comprehensive DIY instructions. No external drilling required.

Interlarm £17.95

INTERLOCK

The low cost solution to car theft

- Positive anti-theft car protection
- Prevents 'joy riders'
- Prevents accidental starting by children
- Easy to install — Simply remove your code plug and take part of your car's wiring system with you!

Interlock — complete £8.95

Electronic ignition systems

Using electronic components specially manufactured for electronic ignition — Automotive Electronics achieve better performance and higher reliability at lower cost.

FUEL-TRIMMER

Electronic Fuel Economy System

What it is

Fuel-trimmer is an electronic carburettor control system designed to reduce fuel consumption. It uses the same 'Deceleration Fuel Cut-off' principle as used by several car makers to improve fuel economy. Fuel-trimmer includes electronic module, vacuum sensor, LED display and comprehensive installation kit.

What it does

When a car is decelerating — descending a hill or slowing in traffic, or on a motorway, the engine is consuming unnecessary fuel. Fuel-trimmer stops this waste of fuel by turning off the fuel from the idling jet of the carburettor. Quite literally, as one of the advertisements stated '70 mph and not using a drop of fuel'. Overall fuel consumption, during typical drive cycles is reduced by up to

10% — under some drive conditions the saving is even greater. The actual percentage depends on driving habits and conditions.

How it works

Using the latest integrated circuits and a special vacuum sensor, Fuel-trimmer 'computes' the engine operating condition and turns off the anti run-on valve, when fuel is not required, thus reducing overall fuel consumption. The in-car LED display visually indicates the operation of Fuel-trimmer.

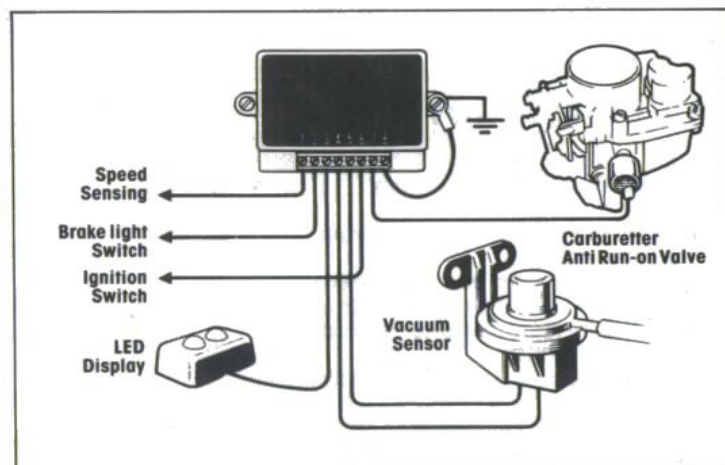

Suitability:

All carburettors fitted with anti run-on valves.

Designed for easy D.I.Y. or professional installation the system is complete with comprehensive fitting kit and fully illustrated fitting instructions.

MC 4114

£29.45

Electronic Ignition

SX500 (Contact Triggered)

- Keeps Ignition in Tune
- Stops Arcing at Contact Breakers
- Greatly Extends Contact Breaker Life
- Eliminates Low Speed Misfires
- Gives Easier Starting and Smoother Running

SX500  **£14.98**

SX2000 (Contact Triggered)

- Reactive Discharge Electronics combining all the advantages of both Inductive and Capacitive Discharge for maximum spark performance
- Gives the most thorough combustion of air/fuel ratios especially current lean mixture emission controlled engines
- Patented clip to coil fitting
- Systems Function Light as well as Static Timing Light
- The ultimate brand leading contact-breaker triggered system

SX2000  **£27.98**

TX1002 (Contactless)

- Can be operated utilising 'Hall Effect' triggerhead or existing contact-breakers
- Extended Dwell Inductive Discharge for maximum spark efficiency
- Three Position Switch
- Systems Function Light
- Robust die-cast case
- Protected from the hostile environment of the engine compartment
- Static Timing Light
- Patented clip to coil fitting
- Fully Waterproof

TX1002 **£39.95**

TX2002 (Contactless)

Combines all features of the TX1002 plus:

- Reactive Discharge combines Inductive and Capacitive systems, for maximum spark performance
- Incorporates unique auxiliary changeover switch

TX2002 **£69.95**

HT LEADS (Boxed sets)

- Guaranteed 100,000 miles
- Fully waterproof plug and coil connections
- Superior radio interference suppression especially VHF/CB Radio
- The highest spark performance from 'unique' metallic core
- Constant quality spark for easier starting and better economy
- Far superior performance to carbon cored leads

4 Cyl **£4.75**
6 Cyl **£9.95**

Anti-theft devices

AT-40

- Guards doors, boot, bonnet from unauthorised entry.
- Also protects valuable accessories and auxiliary lighting.
- Armed and disarmed using concealed under-dash switch with 30 second delay to arm – 7 second entry delay (can also be wired to an external key switch).
- Flashes headlights and sounds car horn when activated.
- Easily fitted by the average D.I.Y. Motorist.

AT-40  **£14.98**

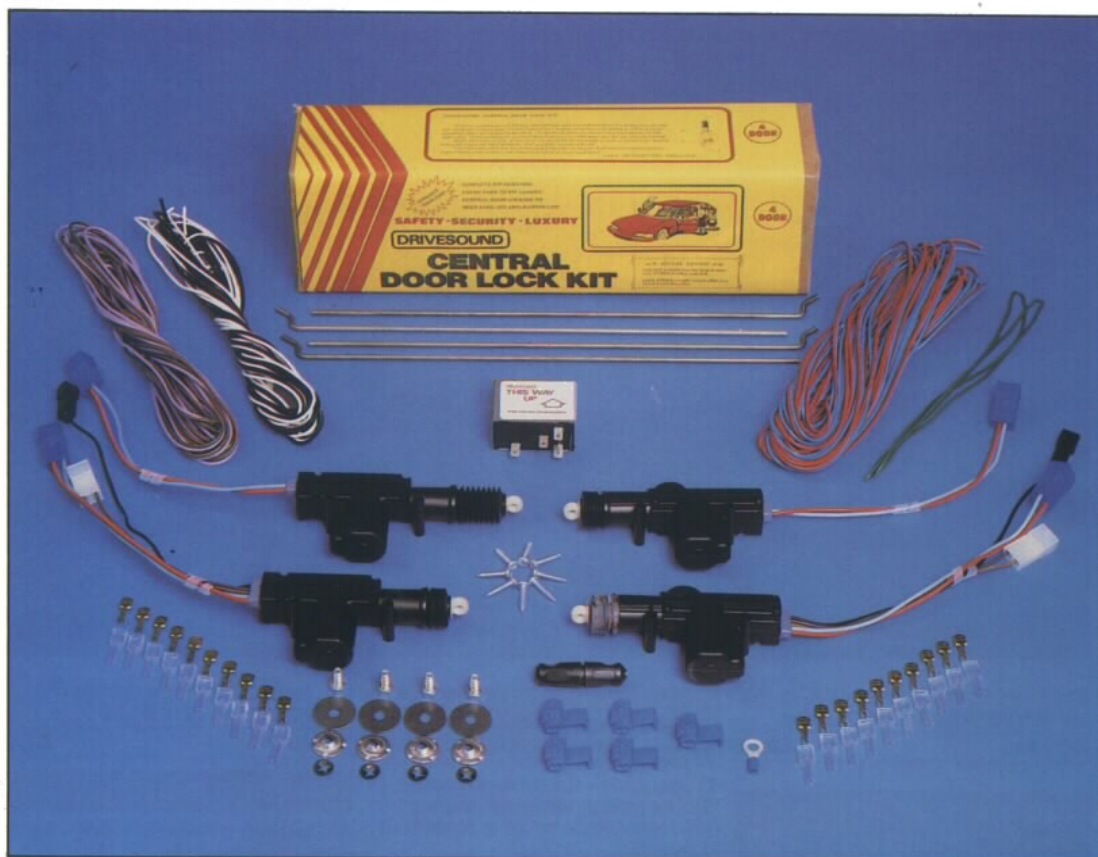

AT-80

- The most sophisticated and complete vehicle security system available.
- Programmable personal code entry system to arm and disarm.
- No exterior bodywork drilling.
- Armed and disarmed using unique magnetic

key fob against windscreen and sensor pad adhered on inside.

- Guards doors, boot, bonnet plus radio/tape and auxiliary fog/spot lamps.
- Flashes headlamps and intermittently sounds horn for both visual and audible alarm.
- Easily fitted by the D.I.Y. enthusiast.

AT-80  **£35.98**

CENTRAL DOOR LOCK KIT

Central door locking was once a luxury found only on expensive cars. Now most cars can be fitted with the drivesound central locking kit. Just think of the advantages in your car.

Convenience Now you will no longer have to strain to unlock passenger doors when it's raining, or the family is loaded with shopping. Everybody can get in at once. Just unlock one front door and every door unlocks!

Safety When one front door is locked from inside every door locks. The occupants are secure and anyone else is locked out.

Security On leaving the car, locking a front door in the normal way locks every door. Without central locking it is easy to forget to lock a passenger door and risk theft.

Reliable The kit uses the same major parts that many car manufacturers use. Should your car battery go flat manual override is always available.

The kit contains everything you need (except tools) to fit central locking to a car (see the application guide). Installation is not difficult. Just remove all door panels and fit a small powerful servo unit to the existing lock mechanism in each door. Connect the wires and run the cables to the control box behind the dashboard. The complete installation is hidden behind the door panels for a professional finish.

4 DOOR DELUXE

2 front door servos
2 rear door servos
Control box, all clamps, cables, connectors. Full instructions

DS1 £97.50

2 DOOR DELUXE

2 front door servos.
Control box, all clamps, cables, connectors. Full instructions.

DS2 £68.50

REMOTE CONTROL

INFRA-RED ALARMS AND CENTRAL LOCKING

Imagine being able to lock/unlock all doors and switch on your alarm without even touching the car. A coded infra-red transmitter fits on your keyring and a receiver on the dashboard. Cannot be triggered by stray radio waves or CB! Should be used with our locking kit or car alarm system.

ADAPTOR KIT

If your car has factory central locking buy this adaptor kit as well to use our remote control

DS6 £49.98

REMOTE CONTROL

Two coded keyring transmitters
dashboard receiver battery charger
control box
Full instructions

DS5 £99.98

'110 dB ELECTRONIC CAR ALARM

The drivesound alarm system can be used on its own or with the remote control system above. Either way it really helps to protect a car from theft and damage.

- Voltage sensitive — of someone tries your car the interior light coming on will trigger the alarm, so will using the starter motor, lights or wipers.
- Direct switching — fit this to your boot or bonnet
- Timed entry and exit period · 110dB electronic sounder

DS7 £39.98

WARNING

Speeding can seriously affect your licence and maybe your livelihood!

MC 3141 Snooper Shadow

MC 3121 Snooper HLR

MC 3151 Snooper Multiband

MC 3131 Snooper SLR

Nearly all of us take the risk of speeding when we are late for an important appointment. Additionally, modern, quiet cars, and fast roads, make it easy to speed unintentionally. It is not surprising therefore, that over 2 million drivers worldwide, protect their licences by using Radar Detectors; and why the Snooper Range of systems has been developed for, and chosen by, today's discerning driver. The

long range models can detect a Radar Gun at up to 2 miles (Independent test by Motor Magazine) giving ample warning for all driving situations, while the short range units provide 1/4 mile "city driving" protection at an economical price. There are four models in the Snooper range. The two long range systems, with a choice of SLR for dash or windscreen fitting, or HLR for behind the grill fitting, provide

the driver with a sensitivity control to adjust the detector for all driving situations. The short range units are designed to cope with normal town conditions and comprise of two budget priced models. The Multiband for simple in-car fitment and the Shadow which can be mounted discreetly behind the grill. All models feature compact micro-chip technology and are backed by a full 12

month warranty. Isn't it time you invested in a better driving record? Order your early warning system NOW.

MC3121 Snooper HLR	£167.90
MC3131 Snooper SLR	£149.90
MC 3141 Snooper Shadow	£112.90
MC 3151 Snooper Multiband	£86.90

BOSCH SUPER PLUGS

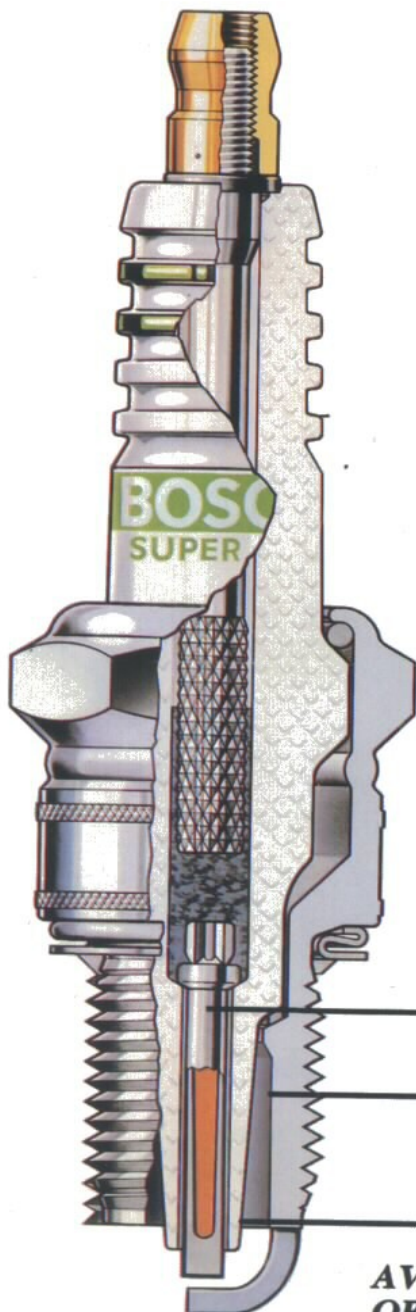

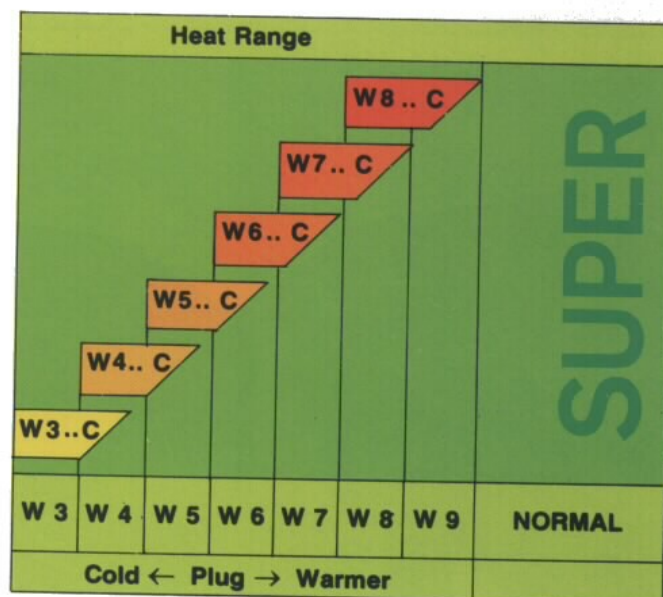

A super start for *all* cars

- Bosch have over 80 years experience manufacturing Spark Plugs thus offering the motorist the quality and reliability that is Bosch.
- Bosch Spark Plugs fit all makes of vehicle no matter where they are manufactured.
- All Bosch Spark Plugs have high quality insulators, longer leakage barriers, heat shrink nickel plated housing with rolled thread plus chrome centre and ground electrodes. These features offer the best quality and performance.

SUPER PLUG HEAT RANGE

Bosch Super Plugs cover a wider heat range than standard plugs shown below.

FEATURES

Copper core in the centre electrode.

Enlarged scavenging area.

Longer insulator nose.

ADVANTAGES

Widens heat range.
Accelerates heat dissipation.
Prevents misfiring.

Quicker self cleaning.

35% longer than standard plugs.
Reaches self cleaning temperature quicker.

BENEFITS

Improves fuel efficiency.

Economical driving direct from starting.

Reduces carbon fouling.

AVAILABLE NATIONWIDE FROM ALL BRANCHES OF MOTORIST DISCOUNT CENTRE AND LONGLIFE.

MW/LW/FM Stereo Radio Cassette

- Rotary controls for volume, tone and tuning.
- Left-right locking balance control assures optimum distribution of sound for any listening preference.
- Locking fast forward permits rapid advance of cassette tape.
- 3 band slide switch of MW/LW/FM permits instant selection of any of these modes.
- Mono/Stereo selector reduces noise, increases sensitivity for stations in a poor signal area.
- Stereo tape direction control and indicators.

- IAC Noise Canceller Circuit suppresses pulse noises and other engine interference.
- Audio Power:
10 Watts at 10% (RMS) THD.
8 Watts at 1% (RMS) THD.

SR 300F £59.95

SR 309F

Sparkomatic's SR 309F Electronic Tune Auto Reverse Cassette MW/FM/LW Stereo

- Phase-Lock-Loop Precision Electronic Tuning
- Electronic Memory Tuning System - 5FM, 5MW, 1LW
- Automatic Seek Controls

- Auto Reverse for Continuous Play
- Locking Fast Forward and Rewind
- LED Digital Time and Frequency Read-out
- Electronic FM Muting Switch
- IAC Noise Canceller Circuit
- Loudness and Mono/Stereo Switches
- Metal Tape Selector
- Comes complete with Mounting Hardware
- Audio Power:
12 Watts at 10% (RMS) THD.
10 Watts at 1% (RMS) THD.

The new SR 309F is another top-of-the-range sophisticated product from Sparkomatic. This electronic tune, auto reverse stereo cassette

has a digital display MW/FM/LW stereo radio with 11 electronic memory stations for instant station recall and automatic station seek. Phase-Lock-Loop precision electronic tuning provides virtually perfect tuning accuracy and a built-in IAC noise cancellor circuit suppresses pulse noises and other engine interference. The SR 309F cassette features auto reverse for continuous play, locking fast forward and rewind, and has a built-in DNR noise reduction circuit and a metal tape selector to ensure that you get the best sound out of your tapes.

SR 309F £149.95

SR 307F

SR 305F

SR 307F HIGH POWER

Auto Reverse Cassette MW/LW/FM Stereo with 5 Band Equaliser

- 45 Watts (RMS) deliver high fidelity audio power comparable to home stereo units.
- Five slide controls adjust tone balance over five frequencies to provide infinite control of the entire audio range with distortion-free clarity.
- Built-in Dynamic Noise Reduction (DNR) circuit dramatically reduces audible tape hiss inherent in recorded tapes and effectively minimises noise present in MW and FM broadcasts.
- IAC Noise Canceller Circuit suppresses pulse noises and other engine interference.
- Left-right locking balance and front-rear fader controls allow you to equalise a 4 speaker system for perfect balance.
- Auto reverse feature automatically

reverses the direction of the tape at the end of the recording for continuous play operation.

- Equaliser ON/OFF allows for full range control.
- Manual programme control allows you to change direction of tape at any time.
- Metal tape selector provides response equalisation for high performance metal tape.
- Locking fast forward and rewind controls permit rapid advance or rewind of cassette tape.
- Electronic switches offer the convenience of light-touch control.
- FM Muting switch eliminates annoying interstation noise when tuning.
- Loudness control permits full bass and treble response at low volume.
- Mono/Stereo switching with automatic override improves reception in weak signal areas.
- Audio Power: 45 Watts at 10% (RMS) THD.

40 Watts at 1% (RMS) THD.

GE 50

Reducing a power booster to a compact size without compromising power is no small feat. But the GE 50, designed primarily for compact and imported cars, is a small wonder. It boosts the entire

frequency range with extraordinary distortion-free discipline. LED power level indicator bars dramatically monitor relative power output. Five slide controls with centre detent adjust frequencies. A fader control balances front to rear speaker output.

Specifications

- Audio Power Output (per channel):

22.5 Watts at 10% (RMS) THD.
20 Watts at 1% (RMS) THD.

- Frequency Response: 20 Hz-20,000 Hz.
- Input Impedance: 52 ohms.
- Output Impedance (operates over indicated range): 4-8 ohms.
- Dimensions (width, height, depth) 4¾" x 1¾" x 4¾", 121 x 35 x 121 mm.

GE 50 £29.95

SK 400

Dual Cone Door Mount Speaker Set

- High compliance air-suspension woofers with specially designed high energy Strontium Cobalt magnets.
- Specially engineered hole in magnet end plates for cooling of voice coil.
- Uniquely engineered coupling

- horn whizzers disperse high frequencies over a wide angle.
- Aluminium dome radiators.
- Durable 1" voice coils.
- Compatible with all 4-8 ohm cassette players and radios.
- Low profile impact and heat resistant Thermo Test TM grilles.
- Handles full 20 Watts of steady audio power with up to 40 Watt peaks.

SK 400 (pair) £19.95

SK 410

Dual Cone Shelf Mount Speaker Set

- High compliance air-suspension woofers with specially designed high energy Strontium Cobalt magnets.
- Specially engineered hole in magnet end plates for cooling of voice coil.
- Uniquely engineered coupling

- horn whizzers disperse high frequencies over a wide angle.
- Aluminium dome radiators.
- Durable 1" voice coils.
- Compatible with all 4-8 ohm cassette players and radios.
- Handles full 20 Watts of steady audio power with up to 40 Watt peaks.

SK 410 (pair) £24.98

SK 501

Slimline door mount dual cone speaker system

The ultimate slimline speaker set designed to deliver a high power, high quality performance. Each specially contoured speaker is engineered with a separate woofer and whizzer to provide a broader frequency range for true high fidelity sound reproduction. The SK 501 requires a minimum of installation space, so it is perfect for those hard-to-fit places in cars like the lowest portion of the door, the dash or the rear deck.

- 5 1/4" slimline speaker set
- 32mm total depth
- Strontium Cobalt woofer magnet
- Cone edge specially treated for long life

- High temperature 1" voice coil
 - Aluminium dome radiator
- Performance specifications:**
- Frequency response: 80 Hz - 16,000 Hz
 - Power handling capability: 20 W Nominal - 40 W Maximum
 - Sensitivity (1W @ 1 meter, 1000 Hz): 92.0 dB
 - Impedance: Compatible with all 4-8 ohm players and radios.

SK 501 (pair) £24.95

SK 415

Multi-Directional Speaker System

A stereo speaker system specially designed for trucks, estate cars and

many deck mount applications. The 'U' shaped mounting brackets, with vibration-free ThermoTest (TM) housings, are fully adjustable to allow optimum location and complete directional control of stereo sound within any vehicle's interior. Securely anchored in each heat and shock-resistant housing is a rugged, compact speaker designed to reproduce the full range of the audio spectrum. High energy Strontium Cobalt magnets, with centre holes for cooling of the voice coils, provide 40 Watts of power handling capability for smooth, rich bass response. Perforated coupling horn whizzers disperse the higher frequencies for 'Live' sound reproduction. The SK 415 stereo speakers let you take the Sparkomatic Sound with you

wherever you go - in whatever you drive.

Performance specifications

- Frequency response: 90 Hz - 15,000 Hz
- Power handling capability: 20 W Nominal - 40 W Maximum
- Sensitivity (1W @ 1 meter, 1000 Hz): 86.0 dB
- Impedance: Compatible with all 4-8 ohm tape players and radios

Dual cone system features

- Aluminium dome radiator
- Air suspension woofer cone
- Strontium cobalt woofer magnet
- High temperature voice coil

SK 415 (pair) £29.98

BOSCH

The more professional DIY power tools

Bosch have for many years manufactured high quality power tools for trade and industry.

Now you can own a DIY power tool built to the same quality and exacting standards to help you achieve results just like a professional.

HAMMER DRILLS & SCREWDRIVERS

650 2-RLE
SB 350

420-E

470-RLE Variable Speed Reversing Hammer Drill
Featuring Bosch Electronic Control at 470 watts with speed pre-selection and control from 0-3000 rev/min — even under a full load, this drill powers its way through concrete. Forward and reverse rotation: increases the applications to include screwdriving and loosening, plus use with all Bosch attachments and accessories.

MC 4066 £47.95

650 2-RLE VARIABLE SPEED/2 SPEED REVERSING HAMMER DRILL

Shares all the features of the 680-2E with a 650 watt input. The big difference? mechanical reverse gear! Fully synchronised gear box allows reverse to be engaged at any speed when needed. High torque: powerful twisting action for driving and freeing screws, or for rapid cutting of threads. Real advanced technology and all the features that the enthusiast and professional could wish for.

MC 4067 £84.59

SB 350 SINGLE SPEED HAMMER DRILL

The baby of the range which is ideal for your first purchase, or as a versatile back-up drill. Switches from Rotary to Hammer drill. Can be used for drilling, hammer drilling and with chuck fitting attachments for sanding, polishing and de-rusting.

MC 4068 £19.95

420-E VARIABLE SPEED HAMMER DRILL

Greater power input: this versatile tool has electronic speed control, for acceleration from 0-2600 rev/min. Can be used for screwdriving and driving all Bosch attachments.

MC 4069 £37.50

500-2E VARIABLE SPEED/2 SPEED HAMMERDRILL
This powerhouse operates with 500 watts input. It features a fully synchronised 2-speed gearbox. The pre-select switch can select up to nine speeds in each gear. Speeds also continuously variable from 0-3400 rev/min, and can be used with Bosch spindle-driven and chuck attachments.

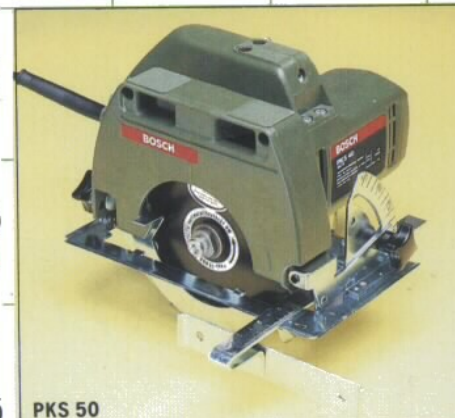

MC 4070 £59.60

500-2E

PST 50

PKS 50

ROUTER

POF 52 PLUNGING ROUTER

Probably the most versatile of all Bosch power tools. Together with a wide range of accessories, the Router can be used for grooving; rebating; bevel routing; profile and slot cutting; template cutting — to list just a few of its many uses. Large Base Plate: including attachments, wide fences, precision depth setting. Twin Guide Knobs: making it safe and easy to handle. Anti-stick coating: glides easily over the work piece and eliminates scratching and marking. The Drive Motor: can also be used on its own for free hand grinding or for stationary routing in the S7 Milling Stand.

MC 4093 £44.50

JIGSAW

PST 50-E VARIABLE SPEED JIGSAW

High cutting speed. Specially balanced plunger. Electronic speed control: for greater range of applications. Cuts wood, metal and ceramics. Handles tight curves with ease.

MC 4094 £24.50

CIRCULAR SAW

PKS 50 5" CIRCULAR SAW

The moderately priced model with 550 watt input and 40 mm cutting capacity. Suitable for bench use due to the inclusion in the design of a stable, three point support surface.

MC 4095 £39.50

PSS 280 A

ORBITAL SANDERS

PSS 280 A ORBITAL SANDER 1/2 SHEET

High orbit rate: orbiting at 10,000 orbits per minute. Provides a superfine finish. Direct drive: less noise. Less wear. Roller bearings facilitate smooth continuous action. Dust extractor: specially built-in to collect dust during operation. Wide-angle clamp: for easy sanding sheet change. Durable backing pad: special rubber that's resistant to solvents.

MC 4072
£49.95

PSS 230

PSS 230 ORBITAL SANDER 1/3 SHEET

Super smooth finish: with the correct sanding sheet, effortless preparation of surfaces can be achieved. Wet or dry: solvent resistant rubber backing plate. Lock switch: for lengthy operations. Dust extractor: available as an optional extra.

MC 4073
£23.50

PWS 550

GRINDER

PWS 550 (4 1/2") MINI GRINDER

For grinding, cutting and shaping — in metal and masonry. Ergonomic design: for safe, one-hand use. Flattened gear head: for easy access in confined spaces. Impact and fracture-proof housing: made from polyamide. Safe, strong and doubly insulated. Ball bearing motor: with high performance gears. Variety of accessories: discs for steel and stone; fibre backed sanding discs; backing pads and wire brush.

MC 4071
£52.65

VACUUM CLEANER

PAS 800 ALL-PURPOSE VACUUM

High capacity: large diameter hose will clean up wet leaves or wood cuttings, grit, glass dust, dirt or water. Effectively and efficiently. Tough, rugged construction: water-proof and non-rusting. Large size filter: pleated, and easy to clean. Floating valve: automatically cuts out when full of liquid (17 litres). Blower connection: if it can't be suction cleaned, simply convert to a blower — and blast it away! The perfect alternative to the traditional domestic cleaner.

MC 4096
£89.25

PLP 100

PKP 12-E

GLUE GUN

PKP 12-E GLUE GUN

Glue feed by thumb pressure. The output is 12 g per minute and heats up ready for use in minutes.

MC 4074
£7.95

SOLDERING GUN

PLP 100 SOLDERING GUN

For soft soldering, cutting polystyrene: welding thermoplastics and gravure work in wood. Long life tip: rapidly heated and easily interchangeable. Energy saving: only heats up when switch is depressed. Illuminator: lights up soldering areas. Safety transformer: high electrical throughput. Tool rest: flattened shoulder ensures safety during breaks in soldering.

MC 4075
£13.98

VACUUM CLEANER

ASG 3 CORDLESS VACUUM CLEANER

The handy sized cleaner that's always at the ready. No power line: makes it ideal for use in awkward corners. Charging unit: combined charger and storage bracket — cannot over charge. Functional design: quiet running motor: LED light to indicate need for recharging; inclined nozzle for perfect intake.

MC 4076
£25.60

PAS 800

ASG 3

HYCONOMISER**SAVE 1 GALLON IN 5
20% FUEL SAVING WITH
INCREASED PERFORMANCE**

"The consumption was now 28 m.p.g. an improvement of 21% E.R.T.

"I can not only claim a reduction of 22% in fuel consumption but the performance of the car has greatly improved"

AUTOTRADE.

"Yes — it is another fuel economy device that makes spectacular promises.... but the difference this time is that, in my experience at least, the thing, actually works".

SAFER MOTORING

"The result was, to say the least, staggering... over 36 miles per gallon — an improvement of more than 20%".

MOTORING EXTRA.**MONEY BACK GUARANTEE**

If, after the Hyconomiser has been fitted correctly, you are not fully satisfied that its fuel saving performance is as claimed, we will refund the purchase price in full.

**ACCLAIMED BY THE PRESS AND
EXPORTED THROUGHOUT THE
WORLD.**

The U.K. manufactured Hyconomiser fuel economy system gives 20% fuel saving with increased performance.

At 2.8 KHz resonance injected into the inlet manifold atomises fuel droplets giving an overall increase in the efficiency of the engine. More power from less fuel saves petrol, reduces harmful exhaust emissions. Easily fitted on a D.I.Y. basis, full fitting instructions supplied.

MC 3127 Hyconomiser £39.50

Twin Carb fitting kits £7.00
(additional kit required for each additional carb).

**JENNICAN RE-FILLABLE
AEROSOL**

The amazing Jennican will save you time and money. Simply fill the can to 1/2 full with the liquid to be sprayed and pressurise to about 50 psi with a cycle pump, footpump or compressor.

Jennicans are currently used by the Ministry of Defence, the N.C.B., the D. of E., Electricity Boards and thousands of handymen everywhere, for spraying a range of ingredients from paint to fresh cream for cakes! Also available is a spare pack of 5 assorted spray nozzles and a handy Can Gun handle that converts the Jennican or any aerosol can into a spray gun.

Recommended Uses

Spray lubricants, rust inhibitors, cleaning solvents, de-icer, penetrating oil, insecticides, gloss and cellulose paints, and water for houseplants or even fresh air for dust blowing.

Specification

- One piece aluminium can designed to withstand 250 psi, lacquered inside and out and available in 3 sizes.
- Valve head manufactured in solid aluminium, knurled for easy tightening.
- Pressure relief valve designed to control maximum pressure to 90 psi.
- Pressurising valve for connection to the air supply.
- Supplied with 5 spray nozzles to cover most applications.

MC ABCA 300 ml (1/2 pint) Jennican £9.95

MC ABCB 600 ml (1 pint) Jennican £10.95

MC ABCC 800 ml (1 1/3 pint) Jennican £11.95

MC ABCD Pack of 5 Spray Nozzles £1.25

MC ABCE Can Gun Aerosol Handle £1.25

**■ FILTER KING**

The well known fuel saver from Malpassi. Tests and trials as well as many satisfied customers claim savings of 10% - 15%.

The Filter King regulates the pressure of fuel delivered by the car's petrol pump to help maintain a steadier float level in the carburettor thus preventing expensive fuel surges and flooding. Its effective filter acts as an extra benefit to trap any dirt or

water which may contaminate the petrol supply.

The Filter King is fitted as standard by Alfa Romeo and Maserati. 100s of thousands sold worldwide already.

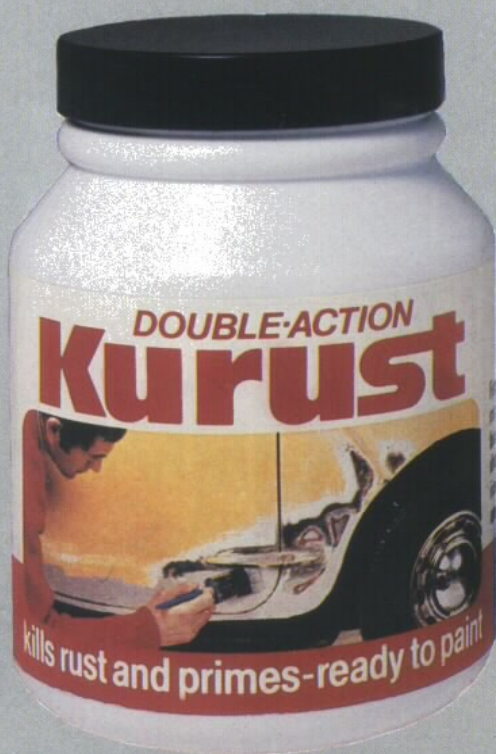

The relentless increase in the cost of motoring means that any aid to fuel economy must be considered an essential fitment.

MC 3126 Filter King £15.95

The Unfair Advantage!

Spax Adjustable Shock Absorbers represent the current state-of-the-art in road-car damper manufacture. Each one is meticulously hand assembled and quality tested in our UK factory. Engineering expertise is drawn directly from the development of our own successful racing dampers and while they won't turn you into a Grand Prix star overnight, they bring all the advantages of improved handling and roadholding to your car, plus...

- Reduced tyre wear
- Improved ride
- Instant adjustability, on the car, through a range of 15 settings
- Direct interchangeability with original units
- Performance tailored to each individual vehicle

■ A history of development under the toughest road, race and rally conditions

■ A reputation for solid engineering quality and reliability

Why not ask about a set of Spax adjustable shock absorbers for your car?

For those motorists who tow, Spax have the ideal suspension solution. Even Keel Suspension Units combine a Spax adjustable damping unit with a special variably rated coil spring. These units bring all the benefits of an adjustable shock absorber plus...

- Elimination of towing sway
- Prevention of front wheels prematurely locking under braking
- Restored ride height and comfort while towing
- Improved steering response
- Simple adjustment by means of an external screw slot
- Better stability for the combination
- Minimal effect on solo motoring

BILSTEIN GAS PRESSURE SHOCK ABSORBERS

Quite simply the best money can buy.

Little wonder that Bilstein gas pressure shock absorbers are specified for original equipment on many of the top models from Porsche, BMW, Mercedes, VW, Ford and Opel.

Bilsteins are not just another replacement shock absorber to get you through the MOT. Changing to Bilstein means that driving becomes a new experience. Why? All the Bilsteins listed below are manufactured in a special setting which has been developed for the sporting, enthusiast driver. Improved cornering, more precise steering, better controlled braking—altogether outstanding roadholding. All this and much more durable, longlasting product too. Unfortunately Bilstein excellence doesn't

come cheaply. Quality rarely does. But when 30% of manufacturing costs are incurred in quality control alone, its not surprising. Even so, when the extra mileage, which every Bilstein offers, is taken into account they are not much more expensive than any common replacement shock absorber.

Follow the example of top works race and rally teams, invest in Bilsteins. There are shocks to suit most popular cars. For the VW Golf, Bilstein have developed a complete suspension kit which is the only kit to carry the official seal of approval from Volkswagen. It comprises 4 tuned, lowered springs as well as a set of 4 Bilstein dampers. Kits are also available for the BMW 3 series and Vauxhall Astra/Opel Kadett D.

Only popular applications are shown below. If you car is not included please check with the full fitting list at your local Motorist Discount Centre.

SIP KIT ATLAS

A compact versatile and economical package of DIY air accessories. Each kit contains:— coiled air line with hose connectors, suction feed spray gun, tyre inflator with gauge, degreasing gun and air gun with three different nozzles. Suitable for use with PLANITAIR or similar type small compressors.

MC 4056

£34.95

SIP AIRMATE COMPRESSORS

The AIRMATE range of portable piston air compressors is ideal for most light duty applications, including painting, spraying, cleaning, degreasing, inflating, stapling, sealing and driving low consumption air tools. These versatile compressors operate from a standard 13 Amp domestic power supply and feature a highly efficient pump directly coupled to a totally enclosed motor.

JET 30

The JET 30 is supplied with air hose and suction spray gun with two different nozzles. It is fitted with pressure regulator, on/off switch, oil level indicator and carrying handle. 3cfm, max 118psi, 0.6HP motor.

MC 4057

£129.98

PLANITAIR

The PLANITAIR is wheel mounted on a 10 litre tank fitted with automatic stop/start pressure switch, built-in filter regulator, pressure gauge, non-return valve, oil level indicator, drain-cock and safety valve. 3.5cfm, max 118psi, 0.65HP motor.

MC 4058

£225.00

SIP CARBON ARC BRAZING KIT

Designed for use in conjunction with all welding transformers, the SIP carbon arc torch produces an 'electric flame' which is ideal for the brazing of thin, worn or rusty and non-ferrous metals. Supplied complete with torch, headshield, carbons, flux coated brazing rods, spot welder attachment and operating instructions.

MC 4059

£11.95

SIP WELDING ACCESSORIES

An extensive range of welding consumables including electrodes of various sizes, carbon rods and flux coated brazing wire.

MC 4060

range from: £11.95

SIP WELDMATE WELDING TRANSFORMERS

WELDMATE portable arc welders are manufactured in the UK to the latest methods of transformer design. Safe and simple to use, even for a beginner, both models operate off a 240v power supply. Each machine is individually tested to ensure that it complies with the highest UK standards and is guaranteed for two years. Supplied complete with accessories and a 32 page illustrated 'Guide to Welding' booklet. Ideal for a wide variety of metal fabrication and repair work.

WELDMATE 100

Electrode size 1.5mm-2.5mm (16-12swg)
Variable current range 40-140 Amps

MC 4061

**PORTAFLAME**

A New, Professional, Portable Welding/Brazing Kit.

Utilises the new, safe Mapp gas from America.

Oxygen Mapp Gas has a flame temperature of (5301°F) and is suitable for welding, cutting, brazing and soldering. The oxygen cylinders are lightweight aluminium construction containing 7 cu. ft. or 24 cu. ft. of compressed oxygen (burning time 1 – 2 hours and 6 – 8 hours respectively). Refills are obtainable.

All components comply to B.S. standards as does the oxygen regulator which is fitted to the oxygen cylinder and calibrated 0-30 psi.

All kits come complete with safety notes, instructions and carrying stand.

7 cu. ft. Kit complete

MP 165 **£139.95**

24 cu. ft. Kit complete

MP 170 (Shown) **£169.95**

Welding and Cutting Kit (24 cu. ft.)

MP 180 **£198.00**

7 cu. ft. Oxygen Refill

MP 71 **£8.00**

24 cu. ft. Oxygen Refill

MP 171 **£9.98**

Mapp Gas Cylinder

MP 63 **£4.50**

**EASYWELD****AC Welding Transformers**

A new range of arc welders manufactured in the UK to the most up-to-date methods of transformer design.

Safe, compact and completely portable. Both sets will operate from a standard 240 volts domestic power supply.

Each machine is individually tested to ensure that it complies with the highest European and UK standards and has fully variable current control, integral switch/pilot light thermal overload protection and full insulation.

Each welder comes complete and ready to use including instruction booklet.

Easyweld 100

Electrode size 1.5 – 2.5mm (16 – 12 swg)

Variable Current Range 40 – 100 amps

MP 56 **100amp** **1** **£39.95**

Easyweld 140

Electrode size 1.5 – 3.25mm (16 – 10 swg)

Variable Current Range 40 – 140 amps

MP 57 **140amp** **£49.95**

Electrodes 3

Packs are available from 95p. See your store manager for details.

CARBON ARC BRAZING KIT

Designed for use in conjunction with all welding transformers the MP59 carbon arc torch produces an 'electric flame' which is ideal for the brazing of thin, worn or rusty ferrous and non-ferrous metals.

Comes complete with Brazing Torch, Heatshield, Carbon Rods, Flux, Unpregnated Brazing Rods and Spot Welder attachment.

MP 59 **Brazing Kit** **2** **£11.95**

**BERNZOMATIC****Oxygen Propane Torch Kit**

Welds, Cuts, Brazes & Solders.

The most versatile, multi-purpose torch kit ever introduced. A complete ready-to-go, easy to use Kit for the DIY Motorist, Hobbyist and Home Handyman. Fully portable and weighing only 5 1/4lb it is ideal for jobs about the home and Farm. Saves time, saves £'s on repair bills.

- Hand contoured burner handle incorporates operating instructions.
- Precise flame control by separate regulator valves.
- 4 1/2ft long hose for easy use & safety.
- Neat, combined carrying handle & bracket stand.
- Spark lighter.
- 5 welding/brazing rods.
- Disposable propane gas and compressed oxygen cylinders.
- Fully illustrated 16 page instruction manual.
